SECTION A.

RESOLUTIONS

THE BOARD OF DIRECTORS OF WESTON WATER SUPPLY CORPORATION
ESTABLISHES THAT:

1. This Tariff of the Weston Water Supply Corporation, serving in Collin County consisting of Sections A, through H, and forms inclusive, is adopted and enacted as the current regulations and policies effective as of July 1st, 2011.
2. Only those preceding written contracts or agreements executed by the present or previous Board of Directors shall remain in effect, unless the contract or agreement requires compliance with changes of the tariff from time to time.
3. The adoption of this tariff does not prohibit or limit the Corporation from enforcing previous penalties or assessments from before the current effective date.
4. An official copy of this and all policies or records shall be available during regular office hours of the Corporation. The Secretary of the Corporation shall maintain the original copy as approved and all previous copies for exhibit.

Rules and regulations of state or federal agencies having jurisdiction shall supersede any terms of this policy. If any section, paragraph, sentence, clause, phrase, word or words of this policy are declared unconstitutional or invalid for any purpose, the remainder of this policy shall not be affected.

PASSED AND APPROVED THIS 23RD DAY OF MAY, 2011

Terry Del Paus
President, Weston Water Supply Corporation

Alex Claudio
Secretary, Weston Water Supply Corporation

SECTION B. STATEMENTS

1. ***Organization.*** The Weston Water Supply Corporation is a member-owned, non-profit corporation incorporated pursuant to the Water Supply/Sewer Service Corporation Act, Article 1434a, Tex. Rev. Civ. Stat. (West 1980, Vernon Supp. 1996 as amended) and as supplemented by the Texas Non-Profit Corporation Act, Tex. Rev. Civ. Stat. Ann., Article 1396-1.01, et seq. (West 1980, Vernon Supp. 1996 as amended) for the purpose of furnishing potable water utility service. Corporation operating policies, rates, and regulations are adopted by the Board of Directors elected by the Members of the Corporation.
2. ***Non-Discrimination Policy.*** Membership in the Corporation and service is provided to all Applicants who comply with the provisions of this Tariff regardless of race, creed, color, national origin, sex, disability, or marital status.
3. ***Policy and Rule Application.*** These policies, rules, and regulations apply to the water services provided by the Weston Water Supply Corporation, also referred to as Corporation or Weston WSC. Failure on the part of the Member, Consumer, or Applicant to observe these policies, rules and regulations gives the Corporation the authority to deny or discontinue service according to the terms of this Tariff as amended from time to time by the Board of Directors of the Corporation.
4. ***Corporation Bylaws.*** The Corporation Members have adopted bylaws (see Article 1396-2.09) which establish the make-up of the Board of Directors and other important regulations of the Corporation. The bylaws are on file at the Corporation's office.
5. ***Fire Protection Responsibility.*** The Corporation does not provide nor imply that fire protection is available on any of the distribution system. All hydrants or flush valves are for the operation and maintenance of the system and may be used for refill only by authorized fire departments. The Corporation reserves the right to remove any hydrant, due to improper use or detriment to the system as determined by the Corporation, at any time without notice, refund, or compensation to the contributors unless such hydrants are installed pursuant to the terms of a Non-Standard Service Contract as provided for in Section F, in which event the terms and conditions of the Contract shall apply.
6. ***Damage Liability.*** The Weston WSC is not liable for damages caused by service interruptions, events beyond its control, and for normal system failures. The limits of liability of the Weston WSC is the extent of the cost of service provided. By acceptance of Membership, Member consents to waiver of such liability.

7. ***Information Disclosure.*** The records of the Corporation shall be kept in the Corporation office. All information collected, assembled, or maintained by or for the Corporation shall be disclosed to the public in accordance with the Texas Open Records Act. An individual customer may request in writing that their name, address, telephone number, or social security number be kept confidential. Such confidentiality does not prohibit the utility from disclosing this information to an official or employee of the state or a political subdivision of the state acting in an official capacity or an employee of the Corporation acting in connection with the employee's duties. Further, such confidentiality does not prohibit the Corporation from disclosing the name and address of each member on a list to be made available to the Corporation's voting members, or their agents or attorneys, in connection with a meeting of the Corporation's members. The Corporation shall give its applicants and customers notice of rights to confidentiality under this policy and all prevailing associated fees for such request.
8. ***Customer Notice Provisions.*** The Corporation shall give written notice of monthly rate changes by mail or hand delivery to all consumers at least 30 days prior to the effective date of the new rate. The notice shall contain the old rates, new rates, effective date of the new rate, date of Board authorization, and the name and phone number of the Corporation's contact person designated to address inquiries about the rate change.
9. ***Grievance Procedures.*** Any Member of the Corporation or individual demonstrating an interest under the policies of this Tariff in becoming a Member of the Corporation shall have an opportunity to voice concerns or grievances to the Corporation by the following means and procedures:
 - a. By presentation of concerns to the Corporation's authorized staff member. If not resolved to the satisfaction of the aggrieved party then,
 - b. By presenting a letter to the Board of Directors stating the individual's grievance or concern and the desired result.
 - c. The Board of Directors shall respond to the complaint by communicating the Board's decision in writing.
 - d. Any charges or fees contested as a part of the complaint in review by the Corporation under this policy shall be suspended until a satisfactory review and final decision has been made by the Board of Directors.
10. ***Plumbing Standards.*** The Corporation adopts applicable sections of the Uniform Plumbing Code as guidance in the design, installation, and maintenance of plumbing systems and service facilities connecting or connected to the utility's water facilities, to the extent appropriate under the applicable statutes and regulations governing public water and sewer utility systems. Any Member may be required to retrofit plumbing systems and service facilities as determined to be necessary by the Corporation for the purposes of compliance with the Uniform Plumbing Code. (30 TAC 290.46(i))

SECTION C. DEFINITIONS

Active Service -- Status of any Member receiving authorized service under the provisions of this Tariff.

Applicant -- Person, partnership, cooperative corporation, corporation, agency, public or private organization of any type applying for service with the Weston Water Supply Corporation.

Board of Directors -- The governing body elected by the Members of the Weston Water Supply Corporation. (Art. 1396-1.02 (7))

Bylaws -- The rules pertaining to the governing of the Weston Water Supply Corporation adopted by the Corporation Members. (Art. 1396-1.02 (5))

Certificate of Convenience and Necessity (CCN) -- The authorization granted under Chapter 13 Subchapter G of the Texas Water Code for Weston Water Supply Corporation to provide water and/or sewer utility service within a defined territory. Weston Water Supply Corporation has been issued Certificate Number 10158. Territory defined in the CCN shall be the Certificated Service Area. (see Section D. Certificated Service Area Map)

Corporation -- The Weston Water Supply Corporation. (Section B. 3 of this Tariff)

Disconnection of Service -- The discontinuance of water service by the Corporation to a Member/Customer.

Easement -- A private perpetual dedicated right-of-way for the installation of water and or sewer pipelines and necessary facilities which allows access to property for future operation, maintenance, facility replacement, facility upgrades, and/or installation of additional pipelines (if applicable). This may also include restrictions on the adjacent area to limit the installation of sewer lines or other facilities that would restrict the use of any area of the easement. (See Sample Application Packet)

Equity Buy-In Fee -- A fee assessed of new Applicants for service for the purpose of acquiring capital to defray the costs of expanding the system facilities in order to meet the customer growth needs of the Corporation. This fee is charged for each meter equivalent or service unit for which service has been requested. (Section G. 5., also see Miscellaneous)

Final Plat -- A complete plan for the subdivision of a tract of land. The Weston Water Supply Corporation shall determine if a plat submitted for the purpose of this Tariff shall qualify as a final plat. (30 TAC 291.85)

Hazardous Condition -- A condition which jeopardizes the health and welfare of the Members/Consumers of the Corporation as determined by the Corporation or regulatory authority.

Indication of Interest Fee -- A fee paid by a potential Member of the Corporation for the purpose of determining the feasibility of a construction and /or expansion project. The Indication of Interest Fee may be converted to a Membership Fee upon determination that service to the Applicant is feasible and available. This also applies to applicants applying for, or receiving, Temporary Service. (Section E. 6. b., and Sample Application Packet)

Liquidated Membership -- A Membership, which has been canceled due to delinquent charges exceeding the Membership Fee or for other reasons as specified in this Tariff.

Member -- Any person, partnership, cooperative corporation, corporation, agency, or public or private organization that has qualified for service and received a Membership in accordance with the Corporation's Tariff.

Membership Certificate -- A non-interest bearing stock certificate purchased from the Corporation evidencing a Member's interest in the Corporation. (see Tariff Section E. 6 b and ART. 1396-2.08 D)

Membership Fee -- A fee qualified as such under the terms of the tariff and the bylaws of the Corporation assigned to the real estate designated to receive service. The membership fee shall be refundable upon termination of service and surrendering the Membership Certificate. (30 TAC 291.3 Definitions, Texas Water Code 13.043(g), Article 1434a, Tex. Rev. Civ. Stat. Sec. 9. A.(c))

Proof of Ownership -- Article 1434a, Tex. Rev. Civ. Stat. Sec. 9A(c) gives authority to the corporation to require ownership of real estate designated to receive service as a condition of membership and service. For the purpose of this tariff, applicants for service and membership shall provide proof of ownership by deed of trust, warranty deed, or other recordable documentation of fee simple title to real estate to be served.

Renter -- A consumer who rents or leases property from a Member or who may otherwise be termed a tenant. (Section E. 7.)

Re-Service -- Providing service to an Applicant at a location for which service previously existed. Costs of such re-servicing shall be based on justifiable expenses. (See Section E. 3. b., E. 4. b., Miscellaneous)

Reserved Service Charge -- A monthly charge assessed for each property where service is being reserved. (see Section F. 6. d., e)

Service Availability Charge -- (Also known as "minimum monthly charge", "minimum", or the "base rate") The monthly charge assessed each Member/Customer for the opportunity of receiving service. The Service Availability Charge is a fixed rate based upon the meter, service size, or equivalent dwelling unit(s). (See definition of Reserved Service Charge)

Service Application and Agreement -- A written agreement between the Member/Applicant and the Corporation defining the specific type of service requirements requested on the current service application and agreement form, and the responsibilities of each party required before service is furnished. (see Sample Application Packet or Non-Standard Service Contract)

Service Unit -- The base unit of service used in facilities design and rate making. For the purpose of this Tariff, a service unit is a 5/8" X 3/4" water meter. Sewer facilities are designed and rates are based on the basis of population served or demand. (see Section G. 6. a., Miscellaneous)

Tariff -- The operating policies, service rules, service extension policy, service rates, rationing policies, sample application packet, and miscellaneous transaction forms adopted by the Board of Directors. A copy of this, Board approved, tariff is on file at the Corporation office and as required since September 1, 1989 at the State office of the TCEQ.

Temporary Service -- The classification assigned an applicant that is in the process of construction. This could also apply to service for uses other than permanent (agricultural, road construction, drilling, livestock, etc.). The length of time associated with this classification will be set by the Board. This classification will change to permanent service after requirements in Section E. 1, E. 2, E. 3, and E. 5 are met. Applicant must have paid an Indication of Interest Fee.

Texas Commission on Environmental Quality (TCEQ) -- State regulatory agency having jurisdiction of water and sewer service utilities and appellate jurisdiction over the rates and fees charged by Non-Profit Water and Sewer Service Corporations. (30 TAC - Texas Administrative Code)

Transferee -- An Applicant receiving a Weston WSC Membership by legal means from a person or entity desiring to forfeit and transfer current rights of Membership to another person or entity. (see Section E. 6 c., Miscellaneous Transaction Forms)

Transferor -- A Member who transfers Membership by legal means to another person or entity desiring to qualify for service at a property for which the Membership is currently issued or to the Corporation. (Art. 1434a Sec.9A)

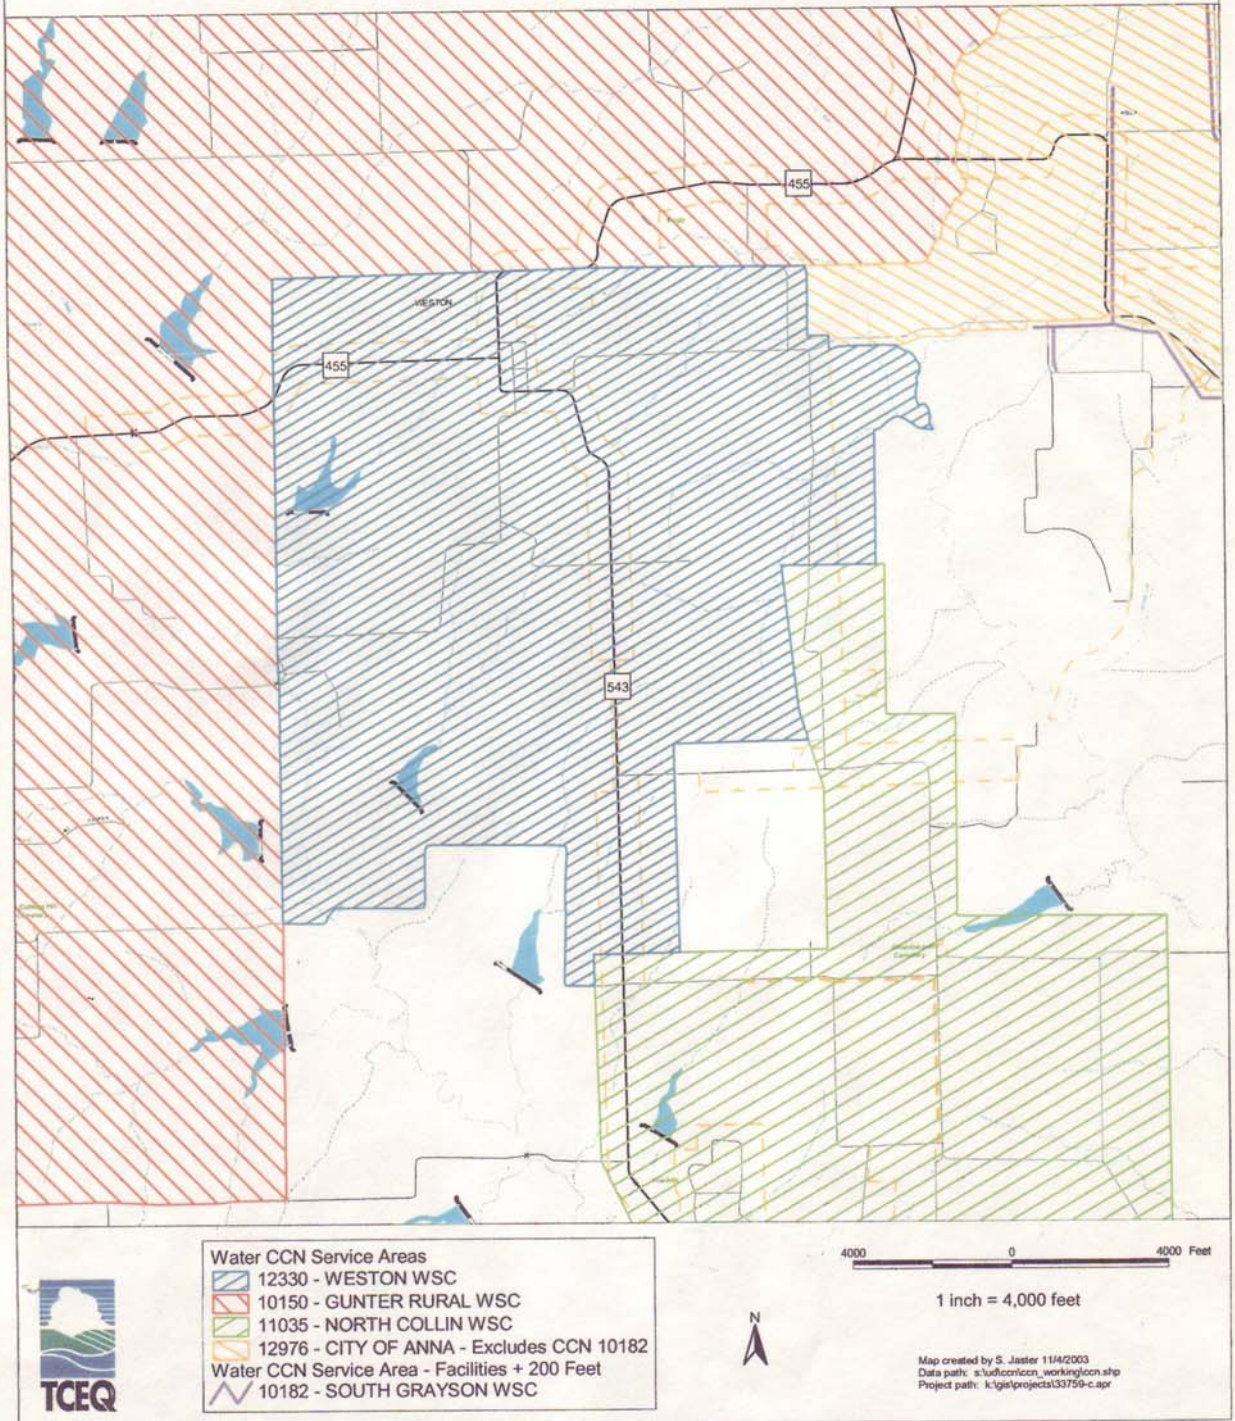

SECTION D.

GEOGRAPHIC AREA SERVED

Weston Water Supply Corporation is located in Collin County generally along FM 455 and FM 543 at Weston, Texas.

The service area is further defined by Certificate of Convenience and Necessity (CCN) # 12330.

Weston Water Supply Corporation
 Water Service Area
 CCN No. 12330
 Application No. 33759-C
 Collin County

SECTION E.

SERVICE RULES AND REGULATIONS

1. ***Service Entitlement.*** An Applicant shall be considered qualified and entitled to water utility service when proper application has been made, terms and conditions of Service and Membership have been met and continue to be met, and all fees have been paid as prescribed. (30 TAC 291.85 (a))
2. ***Application Procedures and Requirements.*** For the purposes of this Tariff, service requested by an Applicant shall be for real estate designated to receive the service provided by the Corporation and shall be divided into the following two classes:
 - a. **Standard Service** is defined as service on an existing pipeline where pipeline or service facility extensions are not required and special design and/or engineering considerations are not necessary. Typically, this would include 5/8" X 3/4" or 3/4" sized water meter services set on existing pipelines.
 - b. **Non-Standard Service** is defined as any service request which requires a larger meter service or an addition to the supply, storage and/or distribution/collection system. The service requirements as prescribed by Section F of this Tariff shall be required of the Non-Standard Service Applicant prior to providing service.
 - c. **Requirements for Standard and Non-Standard Service.**
 - 1) The Corporation's Service Application and Agreement Form shall be completed in full and signed by the Applicant. (See Sample Application)
 - 2) A Right-of-Way Easement Form, Sanitary Control Easement, or other such easement forms, required by the Corporation, must be completed by the Applicant for the purpose of allowing future facility additions. (See Sample Application), 30 TAC 290.47 Appendix C.) **NOTE:** This requirement may be delayed for Non-Standard Service requests.
 - 3) The Applicant shall provide proof of ownership to property for which service has been requested in a manner acceptable to the Corporation. Proof of ownership shall consist of warranty deed, deed of trust or other recordable documentation of fee simple title to the real estate designated to receive service. (ART. 1434a, Sec.9A. (c) Vernon's Tex. Civ. Stat., 13.002 (11) of the Texas Water Code)
 - 4) Notice of application approval and costs of service determined by the Corporation shall be presented to the Applicant in writing and shall remain in effect for a period not to exceed thirty (30) days. After that time the Applicant must re-apply for service. (30 TAC 291.81 (a) (1))
 - 5) If the water main has been located in the public right-of-way and is adjacent to Applicant's property due to the current or previous landowner's refusal to grant easement to the Corporation for the purpose of installing the water main and appurtenances, and the Corporation has documentation of such refusal recorded in public records file, the Applicant, prior to receiving the requested service, shall grant easement to the Corporation. In addition to the normally required fees for service, the Applicant shall pay such sums as are necessary for the removal of the water main from the public right-of-way and for relocation onto the Applicant's property pursuant to such easement. (see Miscellaneous Transaction Forms)
3. ***Activation of Standard Service.***
 - a. **New Tap** - The Corporation shall charge a non-refundable service installation fee as required under Section G of this tariff. The service installation fee shall be quoted in writing

to the Applicant. All fees shall be paid in advance of installation. (30 TAC 291.86 (a)(1)(A))

- b. **Re-Service** - On property where service previously existed, the Corporation shall charge the Membership Fee, where the Membership Fee has been liquidated, and costs necessary to restore service. In addition, the Corporation shall charge accumulated Reserved Service Fees which have been entered on the in-active account as monthly debits. This is allowing the Corporation to recover the costs of reserving capacity at the location for which re-service has been requested. If restoration of service is not requested, this fee will accumulate monthly until the total balance of Reserved Service Fees equals the amount of the Equity Buy-In Fee previously paid for service to the property. After this time the service equipment may be removed by the Corporation and future request for service shall be treated as a new application. (see Miscellaneous Section)
- c. **Performance of Work** - After approval is granted by proper authorities, all tap and equipment installations specified by the Corporation shall be completed by the Corporation staff or designated representative. The tap shall be completed within five (5) working days after approval and receipt of payment of quoted fees. This time may be extended for installation of equipment for Non-Standard Service Request. (see Section F., 30 TAC 291.85)
- d. **Inspection of Customer Service Facilities** - The property of the Applicant/ Member shall be inspected to insure compliance with state required Minimum Acceptable Operating Practices For Public Drinking Water Systems as promulgated by the Texas Commission on Environmental Quality or successor agency. (30 TAC 290.46(j))

4. ***Activation of Non-Standard Service.***

- a. **Activation of Non-Standard Service** shall be conducted as prescribed by terms of Section F of this Tariff.
- b. **Re-Service of Non-Standard Service** - The same terms which apply under the Activation of Standard Service Sub-Section on Re-Servicing shall be applied to Non-Standard Re-Service requests. (Section E. 3. b)

5. ***Changes in Service Classification.*** If at any time the Corporation determines that the customer service needs changed from those originally applied for to a different service classification and the Corporation determines that additional or different facilities are necessary to provide adequate service, the Corporation shall require the Applicant/Member to re-apply for service under the terms and conditions of this Tariff. Applicant/Members failing to comply with this provision shall be subject to the Disconnection with Notice Provisions of this Tariff, Sub-Section 15.a.

6. ***Membership.***

- a. **Eligibility** - Eligibility for Membership shall not guarantee service to the Applicant or Transferee; however, qualification for service is a prerequisite to Membership eligibility for new Applicants or continued Membership for Transferees.
- b. **Membership Certificates** - Upon qualification for service, qualification for Membership, and payment of the required fees, the Corporation shall issue a refundable Membership Certificate to the Applicant. The Membership Certificate provides proof of Membership in the Corporation and shall entitle the Member to one (1) connection to the Corporation's water utility service and one (1) share of Corporation Stock. The Membership Certificate also entitles the Member to one (1) vote in conducting the affairs of any Annual or Special Membership Meeting of the Corporation as prescribed by the Corporation Bylaws. An original or a copy of each

Membership Certificate shall be held on file in the Corporation Office. Ownership of more than one (1) Membership Certificate shall not authorize the Member to cast more than one (1) vote at any annual or special meeting. (Art. 1434a Vernon's Tex. Civ. Stat.) Each Membership Certificate and Stock thereby represented may be assigned to the specified parcel of land originally designated to receive service at the time of application. (ART. 1434a, 9A. (c)(e) Vernon's Tex. Civ. Stat.) **NOTE:** In the event the applicant is in the process of construction the Membership will be considered TEMPORARY until such time as the final Customer Service Inspection is completed and the forms are returned as required. (see Section C., Section E. Sub-Section 1. Service Entitlement)

- c. **Transfers of Membership.** (Art. 1434a., Vernon's Tex. Rev. Civ. Stat. Sec. 9A.)
- 1) A Member is entitled to transfer Membership in the Corporation only under the following circumstances:
 - (a) The Membership is transferred by will to a person related to the Transferor within the second degree by consanguinity; or
 - (b) The Membership is transferred without compensation to a person related to the Transferor within the second degree by consanguinity; or
 - (c) The Membership is transferred without compensation or by sale to the Corporation; or
 - (d) The Membership is transferred as a part of the conveyance of real estate from which the Membership arose.
 - 2) In the event that Membership is transferred pursuant to the provisions of Sub-Section 6.c.(1) such transfer shall not be completed or recorded on the books and records of the Corporation until such time as the transferor has provided satisfactory evidence to the Corporation of such transfer. A transfer of Membership shall not be binding on the Corporation until such transfer has been approved as provided by Sub-Section 6.c.(3).
 - 3) Qualifications for service upon transfer of Membership set forth in Sub-Section 6.c.(1) and 6.c.(2) shall be subject to approval of the Corporation and shall be recorded on the books and records of the Corporation only upon the following terms and conditions:
 - (a) A Transfer Authorization Form has been completed by the Transferor and Transferee;
 - (b) The Transferee has completed the required Application Packet;
 - (c) All indebtedness due the Corporation has been paid;
 - (d) The Membership Certificate has been surrendered, properly endorsed, by the Transferor; and
 - (e) The Transferee demonstrates satisfactory evidence of ownership of the property designated to receive service and from which the Membership originally arose.
- d. **Cancellation of Membership** -- To keep a Membership in good standing, a Service Availability Charge or a Reserved Service Charge must be paid monthly to the Corporation, whether or not water is used. Failure to pay this monthly charge to the Corporation shall jeopardize the Member's Membership standing and give rise to liquidation of the Membership Fee and forfeiture of the Membership. A Member may be relieved of this obligation to pay by surrendering the Membership Certificate, properly endorsed, to the Corporation. The Member shall also complete a Service Discontinuance Request Form prior to termination of service. (See Misc. Transaction Forms.) However, a Member is not relieved of any obligations incurred prior to the date of surrender of a properly endorsed Membership Certificate prior to termination of service. Rights to future service at this tap shall be extended on an as-available basis and subject to the terms of the Activation of Service Sub-Section E.3.a. of this Tariff. (Art. 1434a., Vernon's Tex. Rev. Civ. Stat. Sec. 9 A.(d))

- e. **Liquidation Due To Delinquency** -- When the amount of the delinquent charges owed by the Member equals the Membership Fee, the Membership Fee shall be liquidated and the Membership canceled and transferred back to the Corporation. In the event the Member leaves a balance due on an account guaranteed under the terms of a Service Application and Agreement, and the delinquent Member owns more than one Membership Certificate, the Corporation may liquidate as many of the Member Guarantor's Membership Fees as necessary to satisfy the balance due the Corporation, provided proper notice has been given (see section E, Subsection 15.1a.[4]). The Corporation shall collect any remaining account balances by initiation of legal action. Re-instatement of service shall be subject to the terms of the Activation of Service Sub-Section E. 3. a. of this Tariff.
 - f. **Cancellation Due To Policy Non-Compliance** -- The Corporation may cancel a Membership anytime a Member fails to comply with policies of the Corporation, including but not limited to Member's failure to provide proof of ownership of the property from which the Membership arose. (ART. 1434a., Vernon's Tex. Rev. Civ. Stat. Sec. 9A. (e))
 - g. **Re-assignment of Canceled Membership** -- The Corporation, upon cancellation of Membership under the provisions of this Tariff, may re-assign the Membership rights thereby granted to any person who satisfactorily demonstrates eligibility for Membership, including but not limited to proof of ownership of the property from which the Membership arose. (Art. 1434a., Vernon's Tex. Rev. Civ. Stat. Sec. 9A.(e))
 - h. **Mortgaging of Memberships** -- Nothing herein shall preclude a Member from mortgaging his/her Membership. However, notification to the holder of any security interest (mortgagee/lien-holder) of account status of Member/mortgagor will be provided only upon satisfactory completion of requirements for such conditions under the Membership Mortgage Agreement (See Miscellaneous Transaction Forms). Prior to the cancellation of any Membership as provided under Sub-Section E. 6.d. (Cancellation of Membership), the Corporation will notify the holder of any security interest in the Membership. The holder of the security interest also must hold a security interest in the real property at which water service is provided under the Membership. The Corporation may transfer the Membership to the holder of such security interest in lieu of cancellation, provided the holder of the security interest pays in full all delinquent and unpaid obligations and provided further that the holder of the security interest has secured title to the real property from which the Membership arose. The Corporation may withhold cancellation of a Membership pending the resolution of any foreclosure proceedings or similar legal proceedings by the holder of the security interest.
7. **Owners and Renters.** Any Member, renting or leasing real estate property designated to receive service according to the terms of this tariff to other parties, is responsible for all charges due the Corporation. The Corporation may bill the renter or lessee for utility service (at Member Request) as a third party, but the Member is fully responsible for any and all unpaid bills left by the renter/lessee. The owner shall be required to sign an Alternate Billing Agreement. (See Miscellaneous Transaction Forms.) The Member shall take responsibility for any necessary deposits from the renter/lessee to ensure payment of a past due bill. The Corporation may notify the Member of the renter's past due payment status subject to service charges (see Section: Miscellaneous Transaction Forms).
8. **Denial Of Service.** The Corporation may deny service for the following reasons:
- a. Failure of the Applicant or Transferee to complete all required forms and pay all required fees and charges;
 - b. Failure of the Applicant or Transferee to comply with rules, regulations, policies, and bylaws of the Corporation;

- c. Existence of a hazardous condition at the Applicant's property which would jeopardize the welfare of the Members/Users of the Corporation upon connection;
- d. Failure of Applicant or Transferee to provide representatives or employees of the Corporation reasonable access to property, for which service has been requested;
- e. Failure of Applicant or Transferee to comply with all governmental rules and regulations of the Corporation's tariff on file with the state regulatory agency governing the service applied for by the Applicant;
- f. Failure of Applicant or Transferee to provide proof of ownership, to the satisfaction of the Corporation, of property for which the tap has been requested, and/or
- g. Applicant's service facilities are known to be inadequate or of such character that satisfactory service cannot be provided.

9. ***Applicant's or Transferee's Recourse.*** In the event the Corporation refuses to serve an Applicant under the provisions of these rules, the Corporation must notify the Applicant, in writing, on the basis of its refusal. The Applicant may file for an appeal, in writing, with the Board of Directors of the Corporation.

10. ***Insufficient Grounds for Refusal of Service.*** The following shall not constitute sufficient cause for the refusal of service to an Applicant:

- a. Delinquency in payment for service by a previous occupant of the premises to be served;
- b. Failure to pay a bill to correct previous underbilling due to misapplication of rates more than six (6) months prior to the date of application;
- c. Violation of the Corporation's rules pertaining to operation of non-standard equipment or unauthorized attachments which interferes with the service of others, unless the customer has first been notified and been afforded reasonable opportunity to comply with said requirements;
- d. Failure to pay a bill of another customer as guarantor thereof unless the guarantee was made in writing to the Corporation as a condition precedent to service;
- e. Failure to pay the bill of another customer at the same address except where the change of customer identity is made to avoid or evade payment of a utility bill;
- f. Failure to comply with regulations or rules for anything other than the type of utility service specifically requested including failure to comply with septic tank regulations.

11. ***Deferred Payment Agreement.*** The Corporation may offer a deferred payment plan to a Member who cannot pay an outstanding balance in full and is willing to pay the balance in reasonable installments as determined by the Corporation, including any Late Penalty Fees or interest on the monthly balance to be determined as per agreement. (See Miscellaneous Transaction Forms)

12. ***Charge Distribution and Payment Application.***

- a. **The Service Availability Charge or the Reserved Service Charge** is for the billing period from the 1st day of the month to the last day of the month. Charges shall be prorated for meter installations and service termination's falling during the billing period. Billings for this amount shall be mailed on or about the 1st of the month preceding the month for which this charge is due. All services shall be subject to this charge whether or not the service is in use by the Member.
- b. **Gallonage Charge** shall be billed at the rate specified in Section G and billing shall be calculated in ten (10) gallon increments. Water charges are based on monthly meter readings and are calculated from reading date to reading date. Readings used in all billing calculations shall be taken by the Corporation's employees or designated representative.

- c. **Posting of Payments** -- All payments shall be posted against previous balances prior to posting against current billings.

13. ***Due Dates, Delinquent Bills, and Service Disconnection Date.*** The Corporation shall mail all bills on or about the 15th of the month. All bills shall be due and payable upon receipt and are past due beyond the date indicated on the bill (allowing approximately fifteen (15) days to pay), after which time a penalty shall be applied as described in Section G. A bill is delinquent if not paid on or before the past due date. Payments made by mail will be considered late if postmarked after the past due date. A five (5) day grace period may then be allowed for delayed payments prior to mailing of final notices. Final notices shall be mailed allowing ten (10) additional days for payment prior to disconnection. The ten (10) additional days shall begin on the day the final notice is deposited with the U.S. Postal Service with sufficient postage. If the past due date for the regular or final billing is on a weekend or holiday, the past due date for payment purposes shall be the next day the Corporation office is open for business after said weekend or holiday. For all disputed payment deadlines, the date postmarked on each bill will determine the beginning of each billing cycle or final notice mailings.

Upon written request, any residential customer 60 years of age or older who occupies the entire premises of a dwelling receiving water utility service from the Corporation shall receive extension of the past due date, without penalty. The extension shall not exceed 10 days beyond the usual Fifteen (15) day payment period for a total of no more than twenty-five (25) days from the date the bill is issued. The request may specify extension of the late payment periods for current and subsequent billings. (HB 670 Effective August 30, 1993)

14. ***Rules for Disconnection of Service.*** The following describes the rules and conditions for disconnection of service. For the purposes of disconnecting sewer service under these policies, water service will be terminated in lieu of disconnecting sewer service.

- a. **Disconnection With Notice** -- Water utility service may be disconnected for any of the following reasons after proper notification has been given.

- 1) **Returned Checks** -- The Corporation shall mail, via the U.S. Postal Service, a notice requiring redemption of the returned instrument within ten (10) days of the date of the notice to be made in the Corporation office. Redemption of the returned instrument shall be made by cash, money order, or certified check. Failure to meet these terms shall initiate disconnection of service. (see Miscellaneous Transaction Forms) Any such instruments returned as insufficient or non-negotiable for any reason for any two billing periods within a 12-month period shall be considered evidence of bad credit risk by the Corporation. The Member/Customer in violation shall be placed on a "cash-only" basis for a period of 12 months. **NOTE:** "cash only" means certified check, money order, or cash.
- 2) Failure to pay a delinquent account for utility service or failure to comply with the terms of a deferred payment agreement (Miscellaneous Transaction Forms);
- 3) Violation of the Corporation's rules pertaining to the use of service in a manner which interferes with the service of others or the operation of non-standard equipment if a reasonable attempt has been made to notify the Member and the Member is provided with a reasonable opportunity to remedy the situation;
- 4) Failure of the Member to comply with the terms of the Corporation's Service Agreement, Tariff, Bylaws, or Special Contract provided that the Corporation has given notice of said failure to comply, and Member has failed to comply within a specified amount of time after notification.
- 5) Failure to provide access to the meter under the terms of this Tariff or to property at which water service is received when there is reason to believe that a hazardous condition or policy

- violation exists for which access is necessary to verify.
- 6) Misrepresentation by any Applicant or Transferee of any fact on any form, document, or other agreement required to be executed by the Corporation.
 - 7) Failure of Member to re-apply for service upon notification by the Corporation that Member no longer meets the terms of the service classification originally applied for under the original service application.
- b. **Disconnection Without Notice** -- Water utility service may be disconnected without notice for any of the following conditions:
- 1) A known dangerous or hazardous condition exists for which service may remain disconnected for as long as the condition exists, including but not limited to a violation of the Texas Sanitation and Health Protection Law 4477-1, or there is reason to believe a dangerous or hazardous condition exists and the Member refuses to allow access for the purpose of confirming the existence of such condition and/or removing the dangerous or hazardous condition (Section E. 3. d., E. 24., 30 TAC 290.46 (j));
 - 2) Service is connected without authority by a person who has not made application for service or who has reconnected service without authority following termination of service for nonpayment; and
 - 3) In instances of tampering with the Corporation's meter or equipment, by-passing the meter or equipment, or other diversion of service. **NOTE:** Where reasonable, given the nature of the reason for disconnection, a written statement providing notice of disconnection and the reason therefore shall be posted at the place of common entry or upon the front door of each affected residential unit as soon as possible after service has been disconnected.
- c. **Disconnection Prohibited** -- Utility service may not be disconnected for any of the following reasons:
- 1) Failure of the Member to pay for merchandise or charges for non-utility service provided by the Corporation, unless an agreement exists between the Applicant and the Corporation whereby the Member guarantees payment of non-utility service as a condition of service;
 - 2) Failure of the Member to pay for a different type or class of utility service unless a fee for such service is included in the same bill;
 - 3) Failure of the Member to pay charges arising from an underbilling occurring due to any misapplication of rates more than six (6) months prior to the current billing;
 - 4) Failure of the Member to pay the account of another Member as guarantor thereof, unless the Corporation has in writing the guarantee as a condition precedent to service;
 - 5) Failure of the Member to pay charges arising from an underbilling due to any faulty metering, unless the meter has been tampered with or unless such underbilling charges are due under the Inoperative Meters subsection E. 19. of this tariff.
 - 6) Failure of the Member to pay estimated bill other than a bill rendered pursuant to an approved meter reading plan, unless the Corporation is unable to read the meter due to circumstances beyond its control;
 - 7) In response to a request for disconnection by an Owner/Member of rental property where the renter is billed directly by the Corporation as authorized by the owner, and the renter's account is not scheduled for disconnection under the Rules for Disconnection of Service in this Tariff.
- d. **Disconnection on Holidays and Weekends** -- Unless a dangerous condition exists or the Member requests disconnection, service shall not be disconnected on a day, or on a day preceding a day, when personnel of the Corporation are not available to the public for the purpose of making collections and reconnecting service.
- e. **Disconnection Due to Utility Abandonment** -- The Corporation may not abandon a Member or a Certificated Service Area without written notice to its Members and all similar

neighboring utilities and approval from the Texas Commission on Environmental Quality.

- f. **Disconnection for Ill and Disabled** -- The Corporation may not discontinue service to a delinquent residential Member permanently residing in an individually metered dwelling unit when that Member establishes that discontinuance of service will result in some person at that residence becoming seriously ill or more seriously ill if service is discontinued. Each time a Member seeks to avoid termination of service under this Sub-section, the Member must have the attending physician call or contact the Corporation within sixteen (16) days of issuance of the bill. A written statement must be received by the Corporation from the physician within twenty-six (26) days of the issuance of the utility bill. The prohibition against service termination shall last sixty-three (63) days from the issuance of the utility bill or such lesser period as may be agreed upon by the Corporation and Member's physician. The Member shall enter into a Deferred Payment Agreement (see Miscellaneous Transaction Forms).
- g. **Disconnection of Master-Metered Accounts and Non-Standard Sewer Services** -- When a bill for water utility services is delinquent for a master-metered service complex (defined as a complex in which a single meter serves two (2) or more residential dwelling units), the following shall apply: (30 TAC SUBCHAPTER H. 291.126)
 - 1) The Corporation shall send a notice to the Member as required. This notice shall also inform the Member that notice of possible disconnection will be provided to the tenants of the service complex in five (5) days if payment is not rendered before that time.
 - 2) At least five (5) days after providing notice to the Member and at least five (5) days prior to disconnection, the Corporation shall post at notices, stating "Termination Notice" in public areas of the service complex notifying the residents of the scheduled date for disconnection of service.
 - 3) The tenants may pay the Corporation for any delinquent bill in behalf of the owner to avert disconnection or to reconnect service to the complex.
- h. **Disconnection of Temporary Service** -- When an applicant with a Temporary service fails to comply with the conditions stated in the Service Application and Agreement Form or other rules of this Tariff service may be terminated with notice.

15. **Billing Cycle Changes.** The Corporation reserves the right to change its billing cycles if the work load requires such practice. After a billing period has been changed, the billings shall be sent on the new change date unless otherwise determined by the Corporation.

16. **Back-billing.** The Corporation may back-bill a Member for up to four (4) years (48 months) for meter error, misapplied meter multiplier, incorrect meter readings, or error in computing a Member's bill. Failure to pay the most recent six (6) months billing will result in disconnection of service. Back-billing shall not extend beyond current Membership except in cases involving the transfer of a Membership conditioned upon payment of delinquent obligations by the Transferee, as provided in Section E. Sub-Section 6.h.

17. **Disputed Bills.** In the event of a dispute between the Member and the Corporation regarding any bill, the Corporation shall forthwith make and conduct an investigation as shall be required by the particular case, and report the results in writing thereof to the Member. All disputes under this Subsection must be submitted to the Corporation, in writing, prior to the due date posted on said bill except in cases involving the transfer of a Membership conditioned on payment of delinquent obligations by the Transferee, as provided under Sub-Section 6.h.

18. **Inoperative Meters.** Water meters found inoperative will be repaired or replaced within a reasonable time. If a meter is found not to register for any period, unless by-passed or tampered with, the

Corporation shall make a charge for units used, but not metered, for a period not to exceed three (3) months, based on amounts used under similar conditions during the period preceding or subsequent thereto, or during corresponding periods in previous years.

19. ***Bill Adjustment Due To Meter Error.*** The Corporation shall test any Member's meter upon written request of the Member. In the event the meter tests within the accuracy standards of The American Water Works Association, a test fee as prescribed in Section G of this Tariff shall be imposed. In the event the test results indicate that the meter is faulty or inaccurate, the test fee shall be waived, the meter shall be calibrated or replaced, and a billing adjustment may be made as far back as six (6) months but not extending beyond current Membership except in cases involving the transfer of a Membership conditioned on payment of delinquent obligations by the Transferee, as provided under Sub-Section 6.h. The billing adjustment shall be made to the degree of the meter's inaccuracy as determined by the test. The Member shall complete a Meter Test Request Form prior to the test. (See Misc. Transaction Forms.)

20. ***Meter Tampering and Diversion.*** For purposes of these Sections, meter-tampering, by-passing, or diversion shall all be defined as tampering with the Corporation's service equipment, by-passing the same, or other instances of diversion, such as:

- a. removing a locking or shut-off device used by the Corporation to discontinue service,
- b. physically disorienting the meter,
- c. attaching objects to the meter to divert service or to by-pass,
- d. inserting objects into the meter,
- e. and other electrical and mechanical means of tampering with, by-passing, or diverting service.

The burden of proof of meter-tampering, by-passing, or diversion is on the Corporation. Photographic evidence or any other reliable and credible evidence may be used; however, any evidence shall be accompanied by a sworn affidavit by the Corporation's staff when any action regarding meter-tampering as provided for in these Sections is initiated. A court finding of meter-tampering may be used instead of photographic or other evidence, if applicable. Unauthorized users of services of the Corporation shall be prosecuted to the extent allowed by law under the Texas Penal Code 28.03. (Is a Misdemeanor)

21. ***Meter Relocation.*** Relocation of services shall be allowed by the Corporation provided that:

- a. No transfer of Membership is involved;
- b. An easement for the proposed location has been granted to the Corporation;
- c. The Member pays the actual cost of relocation plus administrative fees, and
- d. Service capacity is available at proposed location.

22. ***Prohibition of Multiple Connections To A Single Tap.*** No more than one (1) residential, commercial, or industrial service connection is allowed per meter. The Corporation may consider allowing an apartment building or mobile home/RV park to apply as a "Master Metered Account" and have a single meter (This refers to Section E. 2. c. (4)). Any unauthorized submetering or diversion of service shall be considered a Multiple Connection and subject to disconnection of service. If the Corporation has sufficient reason to believe a Multiple Connection exists, the Corporation shall discontinue service under the Disconnection with Notice provisions of this Tariff. (see Sample Application Packet)

23. ***Member's Responsibility.***

- a. The Member shall provide access to the meter as per service agreement. If access to the meter is hindered or denied preventing the reading of the meter, an estimated bill shall be rendered to the Member for the month; and a notice shall be sent to the effect that access could

not be gained. If access is denied for three (3) consecutive months after proper notification to the Member, then service shall be discontinued and the meter removed with no further notice. (Section E. 3. d.)

- b. The Member shall be responsible for compliance with all utility, local, and state codes, requirements, and regulations concerning on-site service and plumbing facilities.
 - 1 All connections shall be designed to ensure against back-flow or siphonage into the Corporation's water supply. In particular, livestock water troughs shall be plumbed above the top of the trough with air space between the discharge and the water level in the trough. (30 TAC 290.46)
 - 2 The use of pipe and pipe fittings that contain more than 8.0% lead or solder and flux that contain more than 0.2% lead is prohibited for any plumbing installation or repair of any residential or non-residential facility providing water for human consumption and connected to the Corporation's facilities. Customer service pipelines shall be installed by the applicant and shall be a minimum of SDR-26 PVC pipe. (30 TAC 290.46)
- c. A Member owning more than one (1) Membership Certificate shall keep all payments current on all accounts. Failure to maintain current status on all accounts shall be enforceable as per Service Application and Agreement executed by the Member.
- d. The Corporation's ownership and maintenance responsibility of water supply and metering equipment shall end at the meter or other service equipment. Therefore, all water usage registering upon and/or damages occurring to the metering equipment owned and maintained by the Corporation shall be subject to charges as determined by the Corporation's Tariff as amended from time to time by the Board of Directors.
- e. The Corporation shall require each Member to have a cut-off valve on the Member's side of the meter for purposes of isolating the Member's service pipeline and plumbing facilities from the Corporation's water pressure. The valve shall meet AWWA standards (a ball valve is preferred). The Member's use of the Corporation's curb stop or other similar valve for such purposes is prohibited. Any damage to the Corporation's equipment shall be subject to service charges. (This additional cut-off valve may be installed as a part of the original meter installation by the Corporation.)

SECTION F.

DEVELOPER, SUBDIVISION, AND NON-STANDARD SERVICE REQUIREMENTS

1. ***Corporation's Limitations.*** All Applicants shall recognize that the Corporation must comply with local, state, and federal rules and regulations as promulgated from time to time, and by covenants of current indebtedness. The Corporation is not required to extend retail utility service to an applicant in a subdivision where the responsible party (Applicant/Developer) of the applicable property (subdivision) has failed to comply with the terms of this policy. 13.2502 of the Texas Water Code requires that notice be given herein or by publication (See Miscellaneous Transaction Forms) or by alternative means to the Developers/Applicants. (also see Section F. 11.)
2. ***Purpose.*** This Section is applicable to subdivisions, additions to subdivisions, developments, or whenever additional service facilities are required. For the purposes of this Tariff, Applications subject to this Section shall be defined as Non-Standard.
3. ***Application of Rules.*** This Section may be altered or suspended for planned facility expansions when the Corporation extends its indebtedness. The Board of Directors of the Corporation shall interpret on an individual basis whether or not the Applicant's service request shall be subject to all or part of the conditions of this Section.
4. ***Non-Standard Service Application.*** The Applicant shall meet the following requirements prior to the initiation of a Service Contract by the Corporation:
 - a. The Applicant shall provide the Corporation a completed Service Application And Agreement giving special attention to the item on SPECIAL SERVICE NEEDS OF THE APPLICANT.
 - b. A final plat approved by the Corporation must accompany the Application showing the Applicant's requested service area. The plat must be approved by all regulatory authorities having jurisdiction over lot sizes, sewage control, drainage, right-of-way, and other service facilities. Plans, specifications, and special requirements of such regulatory authorities shall be submitted with the plat. Applicant's for single taps involving extension or upsizing of facilities shall be required to submit maps or plans detailing the location of the requested extension and details of demand requirements.
 - c. At the time the Applicant submits the Application, a Non-Standard Service Investigation Fee (See Section G) to cover initial administrative, legal, and engineering fees shall be paid to the Corporation. The balance of actual expenses shall be refundable to the Applicant and any additional expenses incurred as a result of efforts by the Corporation to study service requirements of the Applicant shall be paid by the Applicant.
 - d. If after the service investigation has been completed, the Corporation determines that the Applicant's service request is for property outside the area dedicated in the Corporation's Certificate of Convenience and Necessity, service may be extended provided that:
 - 1) The service location is contiguous to or within one-fourth (1/4) mile of the Corporation's Certificated Service Area;
 - 2) The service location is not in an area receiving similar service from another utility; and
 - 3) The service location is not within another utility's Certificate of Convenience and

Necessity.

5. **Design.** The Corporation shall study the design requirements of the Applicant's required facilities prior to initiation of a Service Agreement by adopting the following schedule:
 - a. The Corporation's Consulting Engineer shall design all service facilities for the Applicant's requested service within the Corporation's specifications or within certain codes and specifications of neighboring municipalities for all Non-Standard Service. Applications which lie within the enforced extra territorial jurisdiction of a municipality.
 - b. The Engineer's fees shall be paid out of the Non-Standard Service Investigation Fee, provided the actual costs of the Engineer's services do not exceed the amount of the Non-Standard Service Investigation Fee allotted for engineering services. If the Applicant's services exceed the allotted fee, the Applicant shall pay the balance of engineering fees prior to commencing with the service investigation.
 - c. The Consulting Engineer shall submit to the Corporation a set of detailed plans, specifications, and cost estimates for the project.
 - d. If no local authority imposes other design criteria on the Applicant's service request, the Corporation's Engineer shall design all facilities for any Applicant to meet the demand for service as platted and/or requested in the plans or plat submitted in application for service. The Corporation reserves the right to upgrade design of service facilities to meet future demands, provided however, that the Corporation pays the expense of such upgrading above the Applicant's facility requirements.
6. **Non-Standard Service Contract.** All Applicants requesting or requiring Non-Standard Service shall enter into a written contract, drawn up by the Corporation's Attorney, in addition to submitting the Corporation's Service Application and Agreement. Said contract shall define the terms of service prior to construction of required service facilities. Guidelines for the service contract may include, but are not limited to:
 - a. All costs associated with required administration, design, construction, and inspection of facilities for water service to the Applicant's service area and terms by which these costs are to be paid.
 - b. Procedures by which the Applicant shall accept or deny a contractor's bid, thereby committing to continue or discontinue the project.
 - c. Equity Buy In Fee (Front-end Capital Contributions) required by the Corporation in addition to the other costs required under this Section.
 - d. Monthly Reserved Service Charges as applicable to the service request.
 - e. Terms by which reserved service shall be provided to the Applicant and duration of reserved service with respect to the impact the Applicant's service request will have upon the Corporation's system capability to meet other service requests.
 - f. Terms by which the Applicant shall be reimbursed or compensated for fees duplicated in assessments for monthly rates and Equity Buy In Fees.
 - g. Terms by which the Corporation shall administer the Applicant's project with respect to:
 - 1) Design of the Applicant's service facilities;
 - 2) Securing and qualifying bids;
 - 3) Execution of the Service Agreement;
 - 4) Selection of a qualified bidder for construction;
 - 5) Dispensing advanced funds for construction of facilities required for the Applicant's service;

- 6) Inspecting construction of facilities; and
- 7) Testing facilities and closing the project.
- a. Terms by which the Applicant shall indemnify the Corporation from all third party claims or lawsuit in connection with the project contemplated.
- b. Terms by which the Applicant shall deed all constructed facilities to the Corporation and by which the Corporation shall assume operation and maintenance responsibility, including any enforcement of warranties in connection with construction of the Applicant's project.
- c. Terms by which the Applicant shall grant title or easement for right-of-ways, constructed facilities, and facility sites and/or terms by which the Applicant shall provide for the securing of required right-of-ways and sites.
- d. Terms by which the Board of Directors shall review and approve the Service Contract pursuant to current rules, regulations, and bylaws.

7. ***Property and Right-of-Way Acquisition.*** With regard to construction of facilities, the Corporation shall require private right-of-way easements or private property as per the following conditions:

- a. If the Corporation determines that right-of-way easements or facility sites outside the Applicant's property are required, the Corporation shall require the Applicant make good faith efforts to secure easements or title to facility sites in behalf of the Corporation. All right-of-way easements and property titles shall be researched, validated, and filed by the Corporation at the expense of the Applicant. (see Sample Application Packet)
- b. All facilities required to be installed in public right-of-ways in behalf of the Applicant, due to inability to secure private right-of-way easements, shall be subject to costs equal to the original cost of facility installation for those facilities in public right-of-ways, plus the estimated cost of future relocation to private right-of-ways or subject to the cost of installation under state condemnation procedures, whichever is most desired by the Applicant.
- c. The Corporation shall require an exclusive dedicated right-of-way on the Applicant's property (as required by the size of the planned facilities and as determined by the Corporation) and title to property required for other on-site facilities.
- d. Easements and facilities sites shall be prepared for the construction of the Corporation's pipeline and facility installations in accordance with the Corporation's requirements and at the expense of the Applicant.

8. ***Bids For Construction.*** The Corporation's Consulting Engineer shall advertise for bids for the construction of the Applicant's proposed facilities in accordance with generally accepted practices. Plans and specifications shall be made available, with or without charge, to prospective bidders. Although the Corporation reserves the right to reject any bid or contractor, the Corporation shall generally award the contract to the lowest and best bidder in accordance with the following criteria:

- a. The Applicant shall sign the Service Contract noting willingness to proceed with the project and shall pay all costs in advance of construction associated with the project;
- b. The Contractor shall provide an adequate bid bond under terms acceptable to the Corporation;
- c. The Contractor shall secure adequate performance and payment bonding for the project under terms acceptable to the Corporation;
- d. The Contractor shall supply favorable references acceptable to the Corporation;
- e. The Contractor shall qualify with the Corporation as competent to complete the work, and
- f. The Contractor shall provide adequate certificates of insurance as required by the Corporation.

9. ***Pre-Payment For Construction And Service.*** After the Applicant has executed the Service Agreement, the Applicant shall pay to the Corporation all costs necessary for completion of the project prior to construction and in accordance with the terms of the Service Contract.
10. ***Construction.***
- a. All roadwork pursuant to county and/or municipal standards (if applicable) shall be completed prior to facility construction to avoid future problems resulting from road right-of-way completion and excavation. Subject to approval of the requisite authority, road sleeves may be installed prior to road construction to avoid road damage during construction of Applicant's facilities.
 - b. The Corporation shall, at the expense of the Applicant, inspect the facilities to ensure that Corporation standards are achieved.
 - c. Construction plans and specifications shall be strictly adhered to, but the Corporation reserves the right to change-order any specifications, due to unforeseen circumstances during the design phase, to better facilitate operation of the Applicant's facility. All change-order amounts shall be charged to the Applicant.
11. ***Corporation's Obligation for Service*** -- The Corporation's objective to provide service to any customer located within a subdivision governed by this section is strictly limited to the non-standard service specified by the Applicant. The purchaser of any lots who do not receive service because this service has not been specified or paid for by the Applicant shall have no recourse to the Corporation but may have recourse to the Applicant/Developer.

SECTION G. RATES AND SERVICE FEES

Unless specifically defined in this Tariff, all fees, rates, and charges as stated shall be non-refundable.

1. ***Service Investigation Fee.*** The Corporation shall conduct a service investigation for each service application submitted at the Corporation office. An initial determination shall be made by the Corporation, without charge, as to whether the service request is Standard or Non-Standard. An investigation shall then be conducted and the results reported under the following terms:
 - a. All Standard Service requests shall be investigated without charge and all applicable costs for providing service shall be quoted in writing to the Applicant within ten (10) working days of application.
 - b. All Non-Standard Service requests shall be subject to a fee, appropriate to each project, of sufficient amount to cover all administrative, legal, and engineering fees associated with investigation of the Corporation's ability to deliver service to the Applicant to;
 - (1) provide cost estimates of the project,
 - (2) to present detailed plans and specifications as per final plat,
 - (3) to advertise and accept bids for the project,
 - (4) to present a Non-Standard Service Contract to the Applicant, and
 - (5) to provide other services as required by the Corporation for such investigation. A Non-Standard Service Contract shall be presented to the Applicant within a suitable amount of time as determined by the complexity of the project. (See Section F.)
2. ***Membership Fee.*** At the time the application for service is approved, a refundable Membership Fee must be paid before service shall be provided or reserved for the Applicant by the Corporation.

The Membership Fee for water service is \$ 100.00 for each service unit.

3. ***Easement Fee.*** When the Corporation determines that private right-of-way easements and/or facilities sites are necessary to provide service to the Applicant, the Applicant shall be required to make good faith efforts to secure easements in behalf of the Corporation and/or may be required to pay all costs incurred by the Corporation in validating, clearing, and retaining such right-of-way in addition to tap fees otherwise required pursuant to the provisions of this Tariff. The costs may include all legal fees and expenses necessary to attempt to secure such right-of-way and/or facilities sites in behalf of the Applicant. (see Section E. 2. c. (2), Section F. 7. a.)
4. ***Installation Fee.*** The Corporation shall charge an installation fee for service as follows:
 - a. **Standard Service** shall include all current labor, materials, engineering, legal, customer service inspection, and administrative costs necessary to provide individual metered water service and shall be charged on a per tap basis as computed immediately prior to such time as metered service is requested and installed.

Standard Service Installation Fee per meter installation is: \$300.00.

- b. **Non-Standard Service** shall include any and all construction labor and materials, inspection, administration, legal, and engineering fees, as determined by the Corporation under the rules of Section F of this Tariff.
- c. Standard and Non-Standard Service Installations shall include all costs of any pipeline relocations as per Section E.1.c.(6) of this Tariff.

5. **Impact Fee.** In addition to the Membership Fee, each Applicant shall be required to achieve parity with existing Members by contributing capital in an amount projected to defray the cost of up-grading system facilities to meet growth demands created by adding customers. This fee shall be assessed immediately prior to providing or reserving service on a per service unit basis for each tap/lot and shall be assigned and restricted to the tap/lot for which the service was originally requested.

Impact Fee per installation is: \$3,100.00.

6. **Monthly Charges.**

- a. **Service Availability Charge (Monthly Minimum)**

Water Service - The monthly charge for metered water service, which may or may not include allowable gallonage, is based on demand by meter size. Each charge is assessed based on the number of 5/8" X 3/4" meters (as per American Water Works Association maximum continuous flow specifications (see Miscellaneous) equivalent to the size indicated and is used as a base multiplier for the Service Availability Charge and allowable gallonage. Rates and equivalents are as follows:

METER SIZE	5/8" X 3/4" METER EQUIVALENTS	MONTHLY RATE
5/8" X 3/4"	1.0	\$16.75
1"	2.5	\$37.50

- b. **Reserved Service Charges** - The monthly charge for each active account at a specific location for which a meter has not been installed but for which the Corporation and the Applicant have entered into agreement and/or contract for reserved service. This monthly charge shall be based on the Corporation's fixed costs to service the Applicant's dedicated facilities on a per Service Unit basis. This charge reserves service to the Applicant's real estate designated to receive service. This fee is determined on a case-by-case basis but shall never exceed the Service Availability Charge for Metered Service on a per Service Unit basis.
- c. **Gallonage Charge** - In addition to the Service Availability Charge, a gallonage charge shall be added at the following rates for usage during any one (1) billing period.

Water - \$2.50 per 1,000 gallons for usage between 1,001 - 3,000 gallons,
 \$2.75 per 1,000 gallons for usage between 3,001-10,000 gallons,
 \$4.00 per 1,000 gallons for usage between 10,001-15,000 gallons,
 \$5.50 per 1,000 gallons for usage between 15,001-20,000 gallons,
 \$7.00 per 1,000 gallons for usage over 20,001 gallons

Wholesale Water Flat Fee \$50.00 per use
 Refundable Deposit \$1,500.00 (on return of meter)
 \$0.025 per gallon usage plus required taxes.

The Corporation shall, as required by Section 5.235, Water Code of the State of Texas, collect from each of its retail customers a regulatory assessment equal to one-half of one percent of the charge for retail water or wastewater service. This charge shall be collected in addition to other charges for utility service. This fee is collected on all charges pertaining to Section G.6. Monthly Charges of this tariff. (30 TAC 291.76 d.(3) (i))

7. **Late Payment Fee.** All bills shall be due and payable upon receipt and are past due beyond the date indicated on the bill (allowing approximately fifteen (15) days to pay), after which time a late payment fee of **\$5.00**. A bill is delinquent if not paid on or before the past due date.
8. **Returned Check Fee.** In the event a check, draft, or any other similar instrument is given by a person, firm, corporation, or partnership to the Corporation for payment of services provided for in this Tariff, and the instrument is returned by the bank or other similar institution as insufficient or non-negotiable for any reason, the account for which the instrument was issued shall be assessed a return check charge of **\$20.00**. (see Miscellaneous Transaction Forms)
9. **Reconnect Fee.** The Corporation shall charge a fee of **\$25.00** for reconnecting service after the Corporation has previously disconnected the service for any reason provided for in this Tariff except for activation of service under Section E.3.b. Re-Service.
10. **Service Trip Fee.** The Corporation may charge a trip fee of **\$25.00** for any service call or trip to the Member's tap as a result of a request by the Member or resident (unless the service call is in response to damage of the Corporation's or another Member's facilities) or for the purpose of disconnecting or collecting payment for services.
11. **Alternate Billing Agreement For Rental Accounts.** A notification fee in the amount of **\$15.00** will be charged to the account if landlord is notified of delinquency.
12. **Equipment Damage Fee.** If the Corporation's facilities or equipment have been damaged by tampering, by-passing, installing unauthorized taps, reconnecting service without authority, or other service diversion, a fee shall be charged equal to the actual costs for all labor, material, and equipment necessary for repair, replacement, and other Corporation actions. This fee shall be charged and paid before service is re-established. If the Corporation's equipment has not been damaged, a fee equal to the actual costs for all labor, material, equipment, and other actions necessary to correct service diversions, unauthorized taps, or reconnection of service without authority shall be charged. All components of this fee will be itemized, and a statement shall be provided to the Member. If the Corporation's facilities or equipment have been damaged due to negligence or unauthorized use of the Corporation's equipment, right-of-way, or meter shut-off valve, or due to other acts for which the Corporation incurs losses or damages, the Member shall be liable for all labor and material charges incurred as a result of said acts or negligence.
13. **Meter Test Fee.** The Corporation shall test a Member's meter upon written request of the Member. Under the terms of Section E of this Tariff, actual charges of the meter test may be imposed on the affected account.
14. **Transfer Fee.** An Applicant for service who is a Transferee shall complete all required application forms, etc., and pay a Transfer Fee of **\$50.00**.

15. ***Information Disclosure Fee.*** All public information except that which has been individually requested as confidential shall be available to the public for a fee to be determined by the Corporation based on the level of service and costs to provide such information, but not to be inconsistent with the terms of the Texas Open Records Act: Chapter 552, Texas Government Code.
16. ***Wholesale Water Fees.*** Wholesale water is water purchased in bulk and delivered through a fire hydrant meter.
17. ***Other Fees.*** All services outside the normal scope of utility operations which the Corporation may be compelled to provide at the request of a customer or Member shall be charged to the recipient based on the cost of providing such service.

SECTION H.

EMERGENCY WATER DEMAND MANAGEMENT PLAN AND EMERGENCY RATIONING PROGRAM

A. INTRODUCTION

The goal of this plan is to cause a reduction in water use in response to emergency conditions so that the water availability can be preserved. Since emergency conditions can occur rapidly, responses must also be enacted quickly. This plan has been prepared in advance considering conditions that will initiate and terminate the rationing program. A Conservation Committee consisting of two Board Members and the System Manager will monitor usage patterns, public education efforts and make recommendations to the Board on future conservation efforts. The Committee will develop public awareness notices, bill stuffers, and other methods that will begin and continue as a constant type of reminder that water should be conserved at all times, not just during an emergency. This Committee will review and evaluate any needed amendments or major changes due to changes in the WSC service area population, distribution system or supply. This review and evaluation will be done on a regular basis of five years unless conditions necessitate more frequent amendments. The plan will be implemented according to the three stages of rationing as imposed by the Board. The next section describes the conditions, which will trigger these stages.

B. TRIGGER CONDITIONS

- 1. Stage I - Mild Conditions:** Stage I may be implemented when one or more of the following conditions exist:
 - a. Water consumption has reached 80 percent of daily maximum supply for three (3) consecutive days.
 - b. Water supply is reduced to a level that is only 20 percent greater than the average consumption for the previous month.
 - c. There is an extended period (at least eight (8) weeks) of low rainfall and daily use has risen 20 percent above the use for the same period during the previous year.
- 2. Stage II - Moderate Conditions:** Stage II rationing condition may be implemented when one of the following conditions exist:
 - a. Water consumption has reached 90 percent of the amount available for three consecutive days.
 - b. The water level in any of the water storage tanks cannot be replenished for three (3) consecutive days.
- 3. Stage III - Severe Conditions:** Stage III rationing conditions may be implemented when one of the following four conditions exist:
 - a. Failure of a major component of the system or an event which reduces the minimum residual pressure in the system below 20 psi for a period of 24 hours or longer.
 - b. Water consumption of 95 percent or more of the maximum available for three (3) consecutive days.
 - c. Water consumption of 100 percent of the maximum available and the water storage levels in the system drop during one 24 hour period.
 - d. Other unforeseen events which could cause imminent health or safety risks to the public.

C. STAGE LEVELS OF RATIONING

The stage levels of rationing are to be placed in effect by the triggers in Section B. The System shall institute monitoring and enforce penalties for violations of the Rationing Program for each of the Stages listed below. The rationing measures are summarized below.

1. Stage I - Mild Conditions

- a. Alternate day, time of day, or limiting of time restrictions for outside water usage allowed. (System will notify Customers which restriction is in effect)
- b. The system should reduce flushing operations.
- c. Encourage reduction of water use through the notice on bills or other method.

2. Stage II - Moderate Conditions

- a. All outside water use is prohibited (except for livestock).
- b. Make public service announcements as conditions change via local media (TV, radio, newspapers, etc.).

3. Stage III - Severe Conditions

- a. All outside watering prohibited and the system may also prohibit livestock watering by notice.
- b. Water use will be restricted to a percentage of each members prior months usage. This percentage may be adjusted as needed according to demand on the system. Notice of this amount will be sent to each customer.
- c. Corporation shall continue enforcement and educational efforts.

NOTE :

- (1) Refer to your water purchase contract for additional restrictions/requirements that may be imposed by stipulations from the wholesale supplier.
- (2) There may be additional restrictions imposed by Governmental Entities.
- (3) Meters will be read as often as necessary to insure compliance with this program for the benefit of all the customers.

D. INITIATION AND TERMINATION PROCEDURES

Once a trigger condition occurs, the Corporation, or its designated responsible representative, shall, based on recommendation from the Chairperson of the Conservation Committee, decide if the appropriate stage of rationing shall be initiated. The initiation may be delayed if there is a reasonable possibility the water system performance will not be compromised by the condition. If rationing is to be instituted, written notice to the customers shall be given. Written notice of the proposed rationing shall be mailed or delivered to each affected customer. The customer notice shall contain the following information:

1. The date rationing shall begin,
2. The expected duration,
3. The stage (level) of rationing to be employed,
4. Penalty for violations of the rationing program, and
5. Affected area to be rationed.

A sample Customer Notice of rationing condition is included in Miscellaneous Transaction Forms of this tariff. If the rationing period extends 30 days then the Chairperson of the Conservation Committee or manager shall present the reasons for the rationing at the next scheduled Board Meeting and shall request the concurrence of the Board to extend the rationing period. When the

trigger condition no longer exists then the responsible official may terminate the rationing provided that such an action is based on sound judgment. Written notice of the end of rationing shall be given to customers. A rationing period may not exceed 60 days without extension by action of the Board.

E. PENALTIES FOR VIOLATIONS

For the first violation of a rationing provision a written warning shall be issued. The Corporation may install a flow restrictor in the customers' service line for the second violation. The cost of this shall be the actual cost to do the work and not exceed **\$50.00**. For subsequent violations, the Corporation may terminate service for up to 7 days and charge for the service call to restore service. These provisions apply to all customers of the Corporation.

F. EXEMPTIONS OR WAIVERS

The System may grant exemptions or waivers for individuals that can demonstrate just cause for outside or other use of water other than permitted by this Rationing Program. Some examples may include no other source for livestock, for business purposes, for other planned construction or improvement already in progress, etc.

G. IMPLEMENTATION

The Board shall establish a Conservation Committee by Resolution, the chairperson, of which, will be the responsible representative to make Emergency Water Management actions. This committee should also review the procedures in this plan annually so that modifications can be made to accommodate system growth. The provisions which affect customers in this Plan were adopted by the Board. These procedures will be put into effect by the Board or its designated representative.

SECTION I. DROUGHT CONTINGENCY PLAN

A. DECLARATION OF POLICY, PURPOSE, AND INTENT

In order to conserve the available water supply and protect the integrity of water supply facilities, with particular regard for domestic water use, sanitation, and fire protection, and to protect and preserve public health, welfare, and safety and minimize the adverse impacts of water supply shortage or other water supply emergency conditions, the Weston Water Supply Corporation hereby adopts the following regulations and restrictions on the delivery and consumption of water.

Water uses regulated or prohibited under this Drought Contingency Plan (the Plan) are considered to be non-essential and continuation of such uses during times of water shortage or other emergency water supply condition are deemed to constitute a waste of water which subjects the offender(s) to penalties as defined in Section XI of this Plan.

B. PUBLIC INVOLVEMENT

Opportunity for the public to provide input into the preparation of the Plan was provided by the Weston Water Supply Corporation by means of attendance at monthly Board of Director meetings.

C. PUBLIC EDUCATION

The Weston Water Supply Corporation will periodically provide the public with information about the Plan, including information about the conditions under which each stage of the Plan is to be initiated or terminated and the drought response measures to be implemented in each stage. This information will be provided by means of press releases, newsletters, or billing inserts.

D. COORDINATION WITH REGIONAL WATER PLANNING GROUPS

The service area of the Weston Water Supply Corporation is located within the Region C and Weston Water Supply Corporation has provided a copy of this Plan to the Region C Planning Group.

E. AUTHORIZATION

The President, or his designee is hereby authorized and directed to implement the applicable provisions of this Plan upon determination that such implementation is necessary to protect public health, safety, and welfare. The President, or his designee, shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this Plan.

F. APPLICATION

The provisions of this Plan shall apply to all persons, customers, and property utilizing water provided by the Weston Water Supply Corporation. The terms “person” and “customer” as used in the Plan include individuals, corporations, partnerships, associations, and all other legal entities.

G. DEFINITIONS

For the purposes of this Plan, the following definitions shall apply:

Aesthetic water use: water use for ornamental or decorative purposes such as fountains, reflecting pools, and water gardens.

Commercial and institutional water use: water use which is integral to the operations of commercial and non-profit establishments and governmental entities such as retail establishments, hotels and motels, restaurants, and office buildings.

Conservation: those practices, techniques, and technologies that reduce the consumption of water, reduce the loss or waste of water, improve the efficiency in the use of water or increase the recycling and reuse of water so that a supply is conserved and made available for future or alternative uses.

Customer: any person, company, or organization using water supplied by Weston Water Supply Corporation.

Domestic water use: water use for personal needs or for household or sanitary purposes such as drinking, bathing, heating, cooking, sanitation, or for cleaning a residence, business, industry, or institution.

Even number address: street addresses, box numbers, or rural postal route numbers ending in 0, 2, 4, 6, or 8 and locations without addresses.

Industrial water use: the use of water in processes designed to convert materials of lower value into forms having greater usability and value.

Landscape irrigation use: water used for the irrigation and maintenance of landscaped areas, whether publicly or privately owned, including residential and commercial lawns, gardens, golf courses, parks, and rights-of-way and medians.

Non-essential water use: water uses that are not essential nor required for the protection of public, health, safety, and welfare, including:

- (a) irrigation of landscape areas, including parks, athletic fields, and golf courses, except otherwise provided under this Plan;
- (b) use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle;
- (c) use of water to wash down any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
- (d) use of water to wash down buildings or structures for purposes other than immediate fire protection;
- (e) flushing gutters or permitting water to run or accumulate in any gutter or street;
- (f) use of water to fill, refill, or add to any indoor or outdoor swimming pools or jacuzzi-type pools;
- (g) use of water in a fountain or pond for aesthetic or scenic purposes except where necessary to support aquatic life;
- (h) failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s); and
- (i) use of water from hydrants for construction purposes or any other purposes other than fire

fighting.

Odd numbered address: street addresses, box numbers, or rural postal route numbers ending in 1, 3, 5, 7, or 9.

H TRIGGERING CRITERIA FOR INITIATION AND TERMINATION OF DROUGHT RESPONSE STAGES

The President, or his designee, shall monitor water supply and/or demand conditions on a daily basis and shall determine when conditions warrant initiation or termination of each stage of the Plan. Public notification of the initiation or termination of drought response stages shall be by means of, publication in a newspaper of general circulation or direct mail to each customer.

The triggering criteria described below are based on distribution capabilities and customer peak usage.

(a) Stage 1 - Mild Water Shortage Conditions

Requirements for initiation - Customers shall be requested to voluntarily conserve water and adhere to the prescribed restrictions on certain water uses, defined in Section VII – Definitions, when continually falling treated water reservoir levels which do not refill above 100 percent overnight or on such occasion as a water well may be temporarily out of service or when water well pumping levels continue to decline.

Requirements for termination - Stage 1 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days.

(b) Stage 2 - Moderate Water Shortage Conditions

Requirements for initiation - Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses provided in Section VII of this Plan when continually falling treated water reservoir levels which do not refill above 90 percent overnight or on such occasion as a water well may be temporarily out of service or when water well pumping levels continue to decline.

Requirements for termination - Stage 2 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days. Upon termination of Stage 2, Stage 1 becomes operative.

(c) Stage 3 - Severe Water Shortage Conditions

Requirements for initiation - Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses for Stage 3 of this Plan when continually falling treated water reservoir levels which do not refill above 85 percent overnight or on such occasion as a water well may be temporarily out of service or when water well pumping levels continue to decline.

Requirements for termination - Stage 3 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days. Upon termination of Stage 3, Stage 2 becomes operative.

(d) Stage 4 - Critical Water Shortage Conditions

Requirements for initiation - Customers shall be required to comply with the requirements and restrictions

on certain non-essential water uses for Stage 4 of this Plan when continually falling treated water reservoir levels which do not refill above 75 percent overnight or on such occasion as a water well may be temporarily out of service or when water well pumping levels continue to decline.

Requirements for termination - Stage 4 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days. Upon termination of Stage 4, Stage 3 becomes operative.

(e) Stage 5 - Emergency Water Shortage Conditions

Requirements for initiation - Customers shall be required to comply with the requirements and restrictions for Stage 5 of this Plan when the President, or his designee, determines that a water supply emergency exists based on:

1. Major water line breaks, or pump or system failures occur, which cause unprecedented loss of capability to provide water service; or
2. Natural or man-made contamination of the water supply source(s); or
3. One or more water wells are out of service; or
4. One or more water wells are experiencing dangerously declining pumping levels.

Requirements for termination – Stage 5 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days.

(f) Water Rationing

Requirements for initiation - Customers shall be required to comply with the water allocation plan prescribed in Section X of this Plan and comply with the requirements and restrictions for Stage 5 of this Plan when continually falling treated water reservoir levels which do not refill above 50 percent overnight or on such occasion as a water well may be temporarily out of service or when water well pumping levels continue to decline.

Requirements for termination - Water rationing may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 2 consecutive days.

I. Drought Response Stages

The President, or his designee, shall monitor water supply and/or demand conditions on a daily basis and, in accordance with the triggering criteria set forth in Section VIII of the Plan, shall determine that a mild, moderate, severe, critical, or emergency condition exists and shall implement the following actions upon publication of notice in a newspaper of general circulation and/or direct mailing to each customer.

Stage 1 - Mild Water Shortage Condition

Goal: Achieve a voluntary 10 percent reduction in daily water demand.

Voluntary Water Use Restrictions:

- (a) Water customers are requested to voluntarily limit the irrigation of landscaped areas to

Sundays and Thursdays for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and to irrigate landscapes only between the hours of midnight and 10:00 a.m. and 8:00 p.m. to midnight on designated watering days.

- (b) All operations of the Weston Water Supply Corporation shall adhere to water use restrictions prescribed for Stage 2 of the Plan.
- (c) Water customers are requested to practice water conservation and to minimize or discontinue water use for non-essential purposes.

Stage 2 - Moderate Water Shortage Conditions

Goal: Achieve a 15 percent reduction in daily water demand.

Water Use Restrictions. Under threat of penalty for violation, the following water use restrictions shall apply to all persons:

- (a) Irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems shall be limited to Sundays and Thursdays for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
- (b) Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rises. Vehicle washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
- (c) Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or jacuzzi-type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight.
- (d) Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
- (e) Use of water from hydrants shall be limited to fire fighting, related activities, or other activities necessary to maintain public health, safety, and welfare, except that use of water from designated fire hydrants for construction purposes may be allowed under special permit from the Weston Water Supply Corporation.

- (f) Use of water for the irrigation of golf course greens, tees, and fairways is prohibited except on designated watering days between the hours 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight. However, if the golf course utilizes a water source other than that provided by the Weston Water Supply Corporation, the facility shall not be subject to these regulations.
- (g) All restaurants are prohibited from serving water to its patrons except when requested.
- (h) The following uses of water are defined as non-essential and are prohibited:
 - 1.) wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
 - 2.) use of water to wash down buildings or structures for purposes other than immediate fire protection.
 - 3.) use of water for dust control;
 - 4.) flushing gutters or permitting water to run or accumulate in any gutter or street; and
 - 5.) failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s).

Stage 3 - Severe Water Shortage Conditions

Goal: Achieve a 20 percent reduction in daily water demand.

Supply Management Measures:

Reduced or discontinued flushing of water mains.

Water Use Restrictions. All requirements of Stage 2 shall remain in effect during Stage 3 except:

- (a) Irrigation of landscaped areas shall be limited to designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight and shall be by means of hand-held hoses, hand-held buckets, drip irrigation, or permanently installed automatic sprinkler system only. The use of hose-end sprinklers is prohibited at all times.
- (b) The watering of golf course tees is prohibited unless the golf course utilizes a water source other than that provided by the Weston Water Supply Corporation.
- (c) The use of water for construction purposes from designated fire hydrants under special permit is to be discontinued.

Stage 4 - Critical Water Shortage Conditions

Goal: Achieve a 30 percent reduction in daily water demand.

Supply Management Measures:

Reduced or discontinued flushing of water mains.

Water Use Restrictions. All requirements of Stage 2 and 3 shall remain in effect during Stage 4 except:

- (a) Irrigation of landscaped areas shall be limited to designated watering days between the hours of 6:00 a.m. and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight and shall be by means of hand-held hoses, hand-held buckets, or drip irrigation only. The use of hose-end sprinklers or permanently installed automatic sprinkler systems are prohibited at all times.
- (b) Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle not occurring on the premises of a commercial car wash and commercial service stations and not in the immediate interest of public health, safety, and welfare is prohibited. Further, such vehicle washing at commercial car washes and commercial service stations shall occur only between the hours of 6:00 a.m. and 10:00 a.m. and between 6:00 p.m. and 10 p.m.
- (c) The filling, refilling, or adding of water to swimming pools, wading pools, and jacuzzi-type pools is prohibited.
- (d) Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
- (e) No applications for new, additional, expanded, or increased-in-size water service connections, meters, service lines, pipeline extensions, mains, or water service facilities of any kind shall be allowed or approved.

Stage 5 - Emergency Water Shortage Conditions

Goal: Achieve a 50 percent reduction in daily water demand.

Supply Management Measures:

Reduced or discontinued flushing of water mains.

Water Use Restrictions. All requirements of Stage 2, 3, and 4 shall remain in effect during Stage 5 except:

- (a) Irrigation of landscaped areas is absolutely prohibited.
- (b) Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is absolutely prohibited.

Section J: Water Rationing

In the event that water shortage conditions threaten public health, safety, and welfare, the President is hereby authorized to ration water according to the following water allocation plan:

Single-Family Residential Customers

The allocation to residential water customers residing in a single-family dwelling shall be as follows:

Persons per Household	Gallons per Month
1 or 2	6,000
3 or 4	7,000
5 or 6	8,000
7 or 8	9,000
9 or 10	10,000
11 or more	12,000

“Household” means the residential premises served by the customer’s meter. “Persons per household” includes only those persons currently physically residing at the premises and expected to reside there for the entire billing period. It shall be assumed that a particular customer’s household is comprised of two (2) persons unless the customer notifies the Weston Water Supply Corporation of a greater number of persons per household on a form prescribed by the President. The President shall give his best effort to see that such forms are mailed, otherwise provided, or made available to every residential customer. If, however, a customer does not receive such a form, it shall be the customer’s responsibility to go to the Weston Water Supply Corporation offices to complete and sign the form claiming more than two (2) persons per household. New customers may claim more persons per household at the time of applying for water service on the form prescribed by the President. When the number of persons per household increases so as to place the customer in a different allocation category, the customer may notify the Weston Water Supply Corporation on such form and the change will be implemented in the next practicable billing period. If the number of persons in a household is reduced, the customer shall notify the Weston Water Supply Corporation in writing within two (2) days. In prescribing the method for claiming more than two (2) persons per household, the President shall adopt methods to insure the accuracy of the claim. Any person who knowingly, recklessly, or with criminal negligence falsely reports the number of persons in a household or fails to timely notify the Weston Water Supply Corporation of a reduction in the number of person in a household shall be fined not less than \$ 100.00. Residential water customers shall pay the following surcharges:

- \$ 5.00 for the first 1,000 gallons over allocation.
- \$ 6.00 for the second 1,000 gallons over allocation.
- \$ 7.00 for the third 1,000 gallons over allocation.
- \$10.00 for each additional 1,000 gallons over allocation.

Surcharges shall be cumulative.

Commercial Customers

A monthly water usage allocation shall be established by the President, or his designee, for each nonresidential commercial customer other than an industrial customer who uses water for processing purposes. The non-residential customer’s allocation shall be approximately 50 percent of the

customer's usage for corresponding month's billing period for the previous 12 months. If the customer's billing history is shorter than 12 months, the monthly average for the period for which there is a record shall be used for any monthly period for which no history exists. The President shall give his best effort to see that notice of each non-residential customer's allocation is mailed to such customer. If, however, a customer does not receive such notice, it shall be the customer's responsibility to contact the Weston Water Supply Corporation to determine the allocation. Upon request of the customer or at the initiative of the President, the allocation may be reduced or increased if, (1) the designated period does not accurately reflect the customer's normal water usage, (2) one nonresidential customer agrees to transfer part of its allocation to another nonresidential customer, or (3) other objective evidence demonstrates that the designated allocation is inaccurate under present conditions. A customer may appeal an allocation established hereunder to the Board of Directors. Nonresidential commercial customers shall pay the following surcharges:

- \$ 5.00 per thousand gallons for the first 1,000 gallons over allocation.
- \$ 6.00 per thousand gallons for the second 1,000 gallons over allocation.
- \$ 7.00 per thousand gallons for the third 1,000 gallons over allocation.
- \$10.00 per thousand gallons for each additional 1,000 gallons over allocation.

The surcharges shall be cumulative.

Section K: Enforcement

- (a) No person shall knowingly or intentionally allow the use of water from the Weston Water Supply Corporation for residential, commercial, industrial, agricultural, governmental, or any other purpose in a manner contrary to any provision of this Plan, or in an amount in excess of that permitted by the drought response stage in effect at the time pursuant to action taken by President, or his designee, in accordance with provisions of this Plan.
- (b) Any person who violates this Plan is guilty of a misdemeanor and, upon conviction shall be punished by a fine of not less than one hundred dollars (\$ 100.00) and not more than five hundred dollars (\$ 500.00). Each day that one or more of the provisions in this Plan is violated shall constitute a separate offense. If a person is convicted of three or more distinct violations of this Plan, the President shall, upon due notice to the customer, be authorized to discontinue water service to the premises where such violations occur. Services discontinued under such circumstances shall be restored only upon payment of a re-connection charge, hereby established at \$ 50.00, and any other costs incurred by the Weston Water Supply Corporation in discontinuing service. In addition, suitable assurance must be given to the President that the same action shall not be repeated while the Plan is in effect. Compliance with this plan may also be sought through injunctive relief in the district court.
- (c) Any person, including a person classified as a water customer of the Weston Water Supply Corporation, in apparent control of the property where a violation occurs or originates shall be presumed to be the violator, and proof that the violation occurred on the person's property shall constitute a rebuttable presumption that the person in apparent control of the property committed the violation, but any such person shall have the right to show that he/she did not commit the violation. Parents shall be presumed to be responsible for violations of their minor children and proof that a violation, committed by a child, occurred on property within the parents' control shall constitute a rebuttable presumption that the parent committed the violation, but any such parent may be excused if he/she proves that he/she had previously directed the child not to use the water as it was used in

violation of this Plan and that the parent could not have reasonably known of the violation.

- (d) Any employee of the Weston Water Supply Corporation, police officer, or other employee designated by the President, may issue a citation to a person he/she reasonably believes to be in violation of this Ordinance. The citation shall be prepared in duplicate and shall contain the name and address of the alleged violator, if known, the offense charged, and shall direct him/her to appear in the justice court on the date shown on the citation for which the date shall not be less than 3 days nor more than 5 days from the date the citation was issued. The alleged violator shall be served a copy of the citation. Service of the citation shall be complete upon delivery of the citation to the alleged violator, to an agent or employee of a violator, or to a person over 14 years of age who is a member of the violator's immediate family or is a resident of the violator's residence. The alleged violator shall appear in justice court to enter a plea of guilty or not guilty for the violation of this Plan. If the alleged violator fails to appear in justice court, a warrant for his/her arrest may be issued. A summons to appear may be issued in lieu of an arrest warrant. These cases shall be expedited and given preferential setting in justice court before all other cases.

Section L: Variances

The President, or his designee, may, in writing, grant temporary variance for existing water uses otherwise prohibited under this Plan if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or the person requesting such variance and if one or more of the following conditions are met:

- (a) Compliance with this Plan cannot be technically accomplished during the duration of the water supply shortage or other condition for which the Plan is in effect.
- (b) Alternative methods can be implemented which will achieve the same level of reduction in water use.

Persons requesting an exemption from the provisions of this Ordinance shall file a petition for variance with the Weston Water Supply Corporation within 5 days after the Plan or a particular drought response stage has been invoked. All petitions for variances shall be reviewed by the President, or his designee, and shall include the following:

- (a) Name and address of the petitioner(s).
- (b) Purpose of water use.
- (c) Specific provision(s) of the Plan from which the petitioner is requesting relief.
- (d) Detailed statement as to how the specific provision of the Plan adversely affects the petitioner or what damage or harm will occur to the petitioner or others if petitioner complies with this Ordinance.
- (e) Description of the relief requested.
- (f) Period of time for which the variance is sought.
- (g) Alternative water use restrictions or other measures the petitioner is taking or proposes to take to meet the intent of this Plan and the compliance date.
- (h) Other pertinent information.

Variances granted by the Weston Water Supply Corporation shall be subject to the following conditions, unless waived or modified by the President or his designee:

- (a) Variances granted shall include a timetable for compliance.
- (b) Variances granted shall expire when the Plan is no longer in effect, unless the petitioner has failed to meet specified requirements.

No variance shall be retroactive or otherwise justify any violation of this Plan occurring prior to the issuance of the variance.

Section M: Severability

It is hereby declared to be the intention of the Board of Directors that the sections, paragraphs, sentences, clauses, and phrases of this Resolution are severable and, if any phrase, clause, sentence, paragraph, or section of this Plan shall be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs, and sections of this Plan, since the same would not have been enacted by the Board of Directors without the incorporation into this Plan of any such unconstitutional phrase, clause, sentence, paragraph, or section.

Special Service Needs of Applicant:

NOTE: FORM MUST BE COMPLETED BY APPLICANT ONLY. A MAP OF SERVICE LOCATION REQUEST MUST BE ATTACHED.

AGREEMENT made this ____ day of _____, _____, between Weston Water Supply Corporation, a corporation organized under the laws of the State of Texas (hereinafter called the corporation) and _____, (hereinafter called the Applicant and/or Member), Witnesseth:

The Corporation shall sell and deliver water and/or wastewater service to the Applicant and the Applicant shall purchase, receive, and/or reserve service from the Corporation in accordance with the bylaws and tariff of the Corporation as amended from time to time by the Board of Directors of the Corporation. Upon compliance with said policies, including payment of a Membership Fee, the Applicant qualifies for Membership as a new applicant or continued Membership as a transferee and thereby may hereinafter be called a Member.

The Member shall pay the Corporation for service hereunder as determined by the Corporation's tariff and upon the terms and conditions set forth therein, a copy of which has been provided as an information packet, for which Member acknowledges receipt hereof by execution of this agreement. A copy of this agreement shall be executed before service may be provided to the Applicant.

The Board of Directors shall have the authority to discontinue service and cancel the Membership of any Member not complying with any policy or not paying any utility fees or charges as required by the Corporation's published rates, fees, and conditions of service. At any time service is discontinued, terminated or suspended, the Corporation shall not re-establish service unless it has a current, signed copy of this agreement.

If this agreement is completed for the purpose of assigning utility service as a part of a rural domestic water and/or wastewater system loan project contemplated with the Rural Development, an Applicant shall pay an Indication of Interest Fee in lieu of a Membership Fee for the purposes of determining the number of taps to be considered in the design and the number of potential ratepayers considered in determining the financial feasibility of constructing a new water system or expanding the facilities of an existing water system.

The Applicant hereby agrees to obtain, utilize, and/or reserve service as soon as it is available. Applicant, upon qualification for service under the terms of the Corporation's policies, shall further qualify as a Member and the Indication of Interest Fee shall then be converted by the Corporation to a Membership Fee. Applicant further agrees to pay, upon becoming a Member, the monthly charges for such service as prescribed in the Corporation's tariff. Any breach of this agreement shall give cause for the Corporation to liquidate, as damages, the fees previously paid as an indication of interest. In addition to any Indication of Interest Fees forfeited, the Corporation may assess a lump sum of \$300.00 as liquidated damages to defray any losses incurred by the Corporation. If delivery of service to said location is deemed infeasible by the Corporation as a part of this project, the Applicant shall be denied Membership in the Corporation and the Indication of Interest Fee, less expenses, shall be refunded. The Applicant may re-apply for service at a later date under the terms and conditions of the Corporation's policies. For the purposes of this agreement, an Indication of Interest Fee shall be of an amount equal to the Corporation's Membership Fees.

All water shall be metered by meters to be furnished and installed by the Corporation. The meter and/or wastewater connection is for the sole use of the Member or customer and is to provide service to only one (1) dwelling or one (1) business. Extension of pipe(s) to transfer utility service from one property to another, to share, resell, or submeter water to any other persons, dwellings, businesses, or property, etc., is prohibited.

The Corporation shall have the right to locate a water service meter and the pipe necessary to connect the meter on the Member's property at a point to be chosen by the Corporation, and shall have access to its property and equipment located upon Member's premises at all reasonable and necessary times for any purpose connected with or in the furtherance of its business operations, and upon discontinuance of service the Corporation shall have the right to remove any of its equipment from the Member's property. The Member shall install at their own expense any necessary service lines from the Corporation's facilities and equipment to the point of use, including any customer service isolation valves, backflow prevention devices, clean-outs, and other equipment as may be specified by the Corporation. The Corporation shall also have access to the Member's property for the purpose of inspecting for possible cross-connections and other undesirable plumbing practices.

The Corporation is responsible for protecting the drinking water supply from contamination or pollution, which could result from improper plumbing practices. This service agreement serves as notice to each customer of the plumbing restrictions, which are in place to provide this protection. The Corporation shall enforce these restrictions to ensure the public health and welfare. The following undesirable plumbing practices are prohibited by state regulations:

- a. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with state plumbing regulations. Additionally, all pressure relief valves and thermal expansion devices must be in compliance with state plumbing codes.
- b. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the proper installation of an airgap or a reduced pressure-zone backflow prevention assembly and a service agreement must exist for annual inspection and testing by a certified backflow prevention device tester.
- c. No connection which allows condensing, cooling or industrial process water to be returned to the public drinking water supply is permitted.
- d. No pipe or pipe fitting which contains more than 8.0 % lead may be used for the installation or repair of plumbing on or after July 1, 1988, at any connection which provides water for human consumption.
- e. No solder or flux which contains more than 0.2 % lead may be used for the installation or repair of plumbing on or after July 1, 1988, at any connection which provides water for human consumption.
- f. No plumbing fixture is installed which is not in compliance with a state-approved plumbing code.

The Corporation shall maintain a copy of this agreement as long as the Member and/or premises is connected to the public water system. The Member shall allow his property to be inspected for possible cross-connections and other undesirable plumbing practices. These inspections shall be conducted by the Corporation or its designated agent prior to initiating service and periodically thereafter. The inspections shall be conducted during the Corporation's normal business hours.

The Corporation shall notify the Member in writing of any cross-connections or other undesirable plumbing practices which have been identified during the initial or subsequent inspection. The Member shall immediately correct any undesirable plumbing practice on their premises. The Member shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Corporation. Copies of all testing and maintenance records shall be provided to the Corporation as required. Failure to comply with the terms of this service agreement shall cause the Corporation to either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Member.

In the event the total water supply is insufficient to meet all of the Members, or in the event there is a shortage of water, the Corporation may initiate the Emergency Rationing Program as specified in the Corporation's Tariff. By execution of this agreement, the Applicant hereby shall comply with the terms of said program.

By execution hereof, the Applicant shall hold the Corporation harmless from any and all claims for damages caused by service interruptions due to waterline breaks by utility or like contractors, tampering by other Member/users of the Corporation, normal failures of the system, or other events beyond the Corporation's control.

The Member shall grant to the Corporation, now or in the future, any easements of right-of-way for the purpose of installing, maintaining, and operating such pipelines, meters, valves, and any other equipment which may be deemed necessary by the Corporation to extend or improve service for existing or future Members, on such forms as are required by the Corporation.

By execution hereof, the Applicant shall guarantee payment of all other rates, fees, and charges due on any account for which said Applicant owns a Membership Certificate. Said guarantee shall pledge any and all Membership Fees against any balance due the Corporation. Liquidation of said Membership Fees shall give rise to discontinuance of service under the terms and conditions of the Corporation's tariff.

By execution hereof, the Applicant agrees that non-compliance with the terms of this agreement by said Applicant shall constitute denial or discontinuance of service until such time as the violation is corrected to the satisfaction of the Corporation.

Any misrepresentation of the facts by the Applicant on any of the four pages of this agreement shall result in discontinuance of service pursuant to the terms and conditions of the Corporation's tariff.

GENERAL TYPE RIGHT OF WAY EASEMENT FORM

KNOW ALL MEN BY THESE PRESENTS, that _____,
(hereinafter called "Grantors"), in consideration of one dollar (\$1.00) and other good and valuable consideration paid by _____, (hereinafter called "Grantee"), the receipt and sufficiency of which is hereby acknowledged, does hereby grant, bargain, sell, transfer, and convey to said Grantee, its successors, and assigns, a perpetual easement with the right to erect, construct, install, and lay and thereafter use, operate, inspect, repair, maintain, replace, and remove water distribution lines and appurtenances over and across _____ acres of land, more particularly described in instrument recorded in Vol. _____, Page _____, Deed Records, _____ County, Texas, together with the right of ingress and egress over Grantor's adjacent lands for the purpose for which the above mentioned rights are granted. The easement hereby granted shall not exceed 15' in width, and Grantee is hereby authorized to designate the course of the easement herein conveyed except that when the pipeline(s) is installed, the easement herein granted shall be limited to a strip of land 15' in width the center line thereof being the pipeline as installed.

In the event the easement hereby granted abuts on a public road and the county or state hereafter widens or relocates the public road so as to require the relocation of this water line as installed, Grantor further grants to Grantee an additional easement over and across the land described above for the purpose of laterally relocating said water line as may be necessary to clear the road improvements, which easement hereby granted shall be limited to a strip of land 15' in width the center line thereof being the pipeline as relocated.

The consideration recited herein shall constitute payment in full for all damages sustained by Grantors by reason of the installation of the structures referred to herein and the Grantee will maintain such easement in a state of good repair and efficiency so that no unreasonable damages will result from its use to Grantor's premises. This agreement together with other provisions of this grant shall constitute a covenant running with the land for the benefit of the Grantee, its successors, and assigns. The Grantors covenant that they are the owners of the above described land and that said lands are free and clear of all encumbrances and liens except the following:

NON-STANDARD APPLICATION AND AGREEMENT FORM

THE STATE OF TEXAS

COUNTY OF _____

THIS AGREEMENT is made and entered into by and between _____, hereinafter referred to as "Developer", and Weston Water Supply Corporation, hereinafter referred to as "WSC".

WHEREAS, Developer is engaged in developing that certain _____ acres of land in _____, County, Texas, more particularly known as the _____ subdivision, according to the plat thereof recorded at Vol. _____, Page _____ of the Plat Records of _____ County, Texas, said land being hereinafter referred to as "the Property"; and,

WHEREAS, WSC owns and operates a water system which supplies potable water for human consumption and other domestic uses to customers within its service area; and,

WHEREAS, Developer has requested WSC to provide such water service to the Property through an extension of WSC's water system, such extension being hereinafter referred to as "the Water System Extension"; NOW THEREFORE:

KNOW ALL MEN BY THESE PRESENTS:

THAT for and in consideration for the mutual promises hereinafter expressed, and other good and valuable consideration, the sufficiency of which is hereby acknowledged by the parties, Developer and WSC agree as follows:

1. Engineering and Design of the Water System Extension.

- (a). The Water System Extension shall be engineered and designed by a Texas Registered Professional Engineer in accordance with the applicable specifications of the WSC and all governmental agencies having jurisdiction. All plans and specifications must be reviewed and approved by WSC's consulting engineer prior to the issuance of any request for bids for the construction of the Water System Extension. After such approval of the plans and specifications by the WSC's consulting engineer, the plans and specifications shall become part of this Agreement by reference and shall more particularly define "the Water System Extension".
- (b). The Water System Extension must be sized to provide continuous and adequate water service to the property based on plans for the development of the Property based on plans for the development of the Property provided to WSC by the Developer. WSC may require the Water System Extension to be oversized in anticipation of the needs of other customers of the WSC, subject to the obligation to reimburse the Developer for any such oversizing as provided below.

2. Required Easements or Rights-of-Way.

- (a). Developer shall be responsible for dedicating or acquiring any easements across privately owned land which are necessary for the construction of the Water System Extension and for obtaining any Governmental approvals necessary to construct the Water System Extension in public right-of-way.
- (b). Any easements acquired by the Developer shall be assigned to WSC upon proper completion of the construction of the Water System Extension. The validity of the legal instruments by which the Developer acquires any such easements and by which Developer assigns such easements to WSC must be approved by WSC's attorney.

3. Construction of the Water System Extension.

- (a). Engineer shall advertise for bids for the construction of the Water System Extension in accordance with generally accepted bidding practices and shall award the contract for the construction of the Water System Extension subject to the approval of the WSC. WSC may reject any bid.
- (b). The Water System Extension shall be constructed in accordance with the approved plans and specifications. WSC shall have the right to inspect all phases of the construction of the Water System Extension. Developer must give written notice to WSC of the date on which construction is scheduled to begin so that WSC may assign an inspector. WSC may charge reasonable inspection fees based on the actual costs of labor, travel and incidental expenses of the inspectors, plus 15% overhead.

4. Dedication of Water System Extension to WSC.

Upon proper completion of construction of the Water System Extension and final inspection thereof by WSC, the Water System Extension shall be dedicated to the WSC by an appropriate legal instrument approved by WSC's Attorney. The Water System Extension shall thereafter be owned and maintained by WSC.

5. Cost of the Water System Extension.

- (a). Developer shall pay a \$500.00 deposit at time of execution of this agreement. Deposit shall be used to fund associated WSC office filing fees and Engineering feasibility study fees. If WSC and Engineer fees exceed the \$500.00 deposit, the WSC shall notify Developer of amount needed to complete study. WSC shall reimburse Developer remainder of deposit after all WSC and Engineer fees associated with feasibility study have been paid.
- (b). If Developer chooses to proceed with construction, Developer shall pay all costs associated with the Water System Extension as a contribution in aid of construction, including without limitation to the cost of the following:
 - (1) engineering and design;
 - (2) easement or right -of-way acquisition;
 - (3) construction;
 - (4) inspection;
 - (5) attorneys' fees;
 - (6) governmental or regulatory approvals required to lawfully provide service.
- (c). Developer shall indemnify WSC and hold WSC harmless from all of the foregoing costs.
- (d). Provided, however, nothing herein shall be construed as obligating the Developer to

maintain the Water System Extension subsequent to its dedication and acceptance for maintenance by WSC.

- (e). If WSC has required the Water System Extension to be oversized in anticipation of the needs of the other customers of WSC, WSC shall reimburse Developer for the additional costs of construction attributable to the oversizing, as determined by the WSC's consulting engineer, in three annual installments without interest beginning one year after dedication of the Water System Extension to WSC.

6. Service From the Water System Extension.

- (a). After proper completion and dedication of the Water System Extension to WSC, WSC shall provide continuous and adequate water service to the Property, subject to all duly adopted rules and regulations of WSC and the payment of the following:
 - (1) All standard rates, fees and charges as reflected in WSC's approved tariff;
 - (2) Any applicable impact fee adopted by WSC;
 - (3) Any applicable reserved service charge adopted by WSC.
- (b). It is understood and agreed by the parties that the obligation of WSC to provide water service in the manner contemplated by this Agreement is subject to the issuance by the Texas Natural Resource Conservation Commission and all other governmental agencies having jurisdiction of all permits, certificates or approvals required to lawfully provide such service.
- (c). Unless the prior approval of WSC is obtained, the Developer shall not:
 - (1) construct or install additional water lines or facilities to service areas outside the Property;
 - (2) add any additional lands to the Property for which water service is to be provided pursuant to this agreement; or
 - (3) connect or serve any person or entity who, in turn, sells water service directly or indirectly to another person or entity.

7. Effect of Force Majeure.

In the event either party is rendered unable by force majeure to carry out any of its obligations under this

Agreement, in whole or in part, then the obligations of that party, to the extent affected by the force majeure shall be suspended during the continuance of the inability, provided however, that due diligence is exercised to resume performance at the earliest practical time. As soon as reasonably possible after the occurrence of the force majeure relied upon to suspend performance, the party whose contractual obligations are affected thereby shall give notice and full particulars of the force majeure to the other party.

The cause, as far as possible, shall be remedied with all reasonable diligence. The term "force majeure" includes acts of God, strikes, lockouts or other industrial disturbances, acts of the public enemy, orders of the government of the United States or the State of Texas or any civil or military authority, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, hurricanes, storms, floods, washouts, droughts, arrests, restraints of government and civil disturbances, explosions, breakage, or accidents to equipment, pipelines, or canals, partial or complete failure of water supply, and any other inability's of either party, whether similar to those enumerated or otherwise, that are not within the control of the party claiming the inability and that could not have been avoided by the exercise of due diligence and care. It is understood and agreed that the settlement or strikes and lockouts shall be entirely within the discretion of the party having the difficulty and that the requirement that any force majeure be remedied with all reasonable dispatch

shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party if the settlement is unfavorable to it in the judgment of the party having the difficulty.

8. Notices.

Any notice to be given hereunder by either party to the other party shall be in writing and may be effected by personal delivery or by sending said notices by registered or certified mail, return receipt requested, to the address set forth below. Notice shall be deemed given when deposited with the United States Postal Service with sufficient postage affixed.

Any notice mailed to the WSC shall be addressed:

Weston Water Supply Corporation
P O Box 158
406 Chicken Street
Weston Texas 75097

Any notice mailed to Developer shall be addressed:

Either party may change the address for notice to it by giving notice of such change in accordance with the provisions of this paragraph.

9. Severability.

The provisions of this Agreement are severable, and if any word, phrase, clause, sentence, paragraph, section, or other part of this Agreement or the application thereof to any person or circumstance shall ever be held by any court of competent jurisdiction to be invalid or unconstitutional for any reason, the remainder of this Agreement and the application of such word, phrase, clause, sentence, paragraph, section, or other part of this Agreement to other persons or circumstances shall not be affected thereby and this Agreement shall be construed as if such invalid or unconstitutional portion had never been contained therein.

10. Entire Agreement.

This Agreement, including any exhibits attached hereto and made a part hereof, constitutes the entire agreement between the parties relative to the subject matter of this Agreement. All prior agreements, covenants, representations, or warranties, whether oral or in writing, between the parties are merged herein.

11. Amendment.

No amendment of this Agreement shall be effective unless and until it is duly approved by each party and reduced to a writing signed by the authorized representatives of the WSC and the Developer, respectively, which amendment shall incorporate this Agreement in every particular not otherwise changed by the amendment.

12. Governing Law.

This Agreement shall be construed under and in accordance with the laws of the State of Texas and all obligations of the parties are expressly deemed performable in Collin County, Texas.

13. Venue.

Venue for any suit arising hereunder shall be in Collin County, Texas.

14. Successors and Assigns.

This Agreement shall be binding on and shall inure to the benefit of the heirs, successors and assigns of the parties.

15. Assignability.

The rights and obligations of the Developer hereunder may not be assigned without the prior written consent of the WSC.

16. Effective Date.

This Agreement shall be effective from and after the date of due execution by all parties.

IN WITNESS WHEREOF each of the parties has caused this Agreement to be executed by its duly authorized representative in multiple copies, each of equal dignity, on the date or dates indicated below.

I understand under this agreement that I will be given notice by the Corporation of all delinquencies on this account prior to disconnection of service. A notification fee in the amount of \$15.00 will be charged to the account in accordance with the provisions of the Corporation's tariff.

I also understand that I am responsible to see that this account balance is kept current, as is any other account in the Corporation. This account shall not be reinstated until all debt on the account has been retired.

CONFIDENTIALITY OF UTILITY RECORDS FORM

The Texas Legislature passed H.B. 859 this past session to allow various utilities to maintain confidentiality of certain records at the request of the customer. Effective September 1, 1993, H.B. 859 provides that a government operated utility which provides water, sewer, garbage, gas, or electricity for compensation, may not disclose personal information in a customer's account records if the customer requests in writing that the utility keep the information confidential. The utility is required to include with a bill sent to each of its customers a notice of the customer's right to request confidentiality of personal information as well as any applicable fee or form required to comply with such requests. Personal information means an individual's address, telephone number, or social security number. This bill applies to WSC's, cities, districts and all governmental bodies who are subject to the Open Records Act.

Such confidentiality does not prohibit a WSC from disclosing the name and address of each member on a list to be made available to the Corporation's voting members, or their agents or attorneys, in connection with any annual or special meeting of the Corporation's members.

The attached forms are designed for your use and may be copied, customized to your utility's needs, and mailed to each customer as required by law. Note the following instructions:

Form #1 is for use by cities or districts. (Not attached/Not applicable)

Form #2 is for use by water supply corporations.

Type your address in the appropriate spaces.

Fill in the charge for the service (not to exceed \$5.00).

This is a one-time requirement for each customer. All existing customers should be notified by use of these or similar forms and all new applicants should be given notice and opportunity for confidentiality of records. The attached forms may be used in your application for new services.

**YOU CAN NOW REQUEST THAT PERSONAL INFORMATION CONTAINED IN OUR
UTILITY RECORDS NOT BE RELEASED TO UNAUTHORIZED PERSONS**

The Texas Legislature recently enacted a bill, effective September 1, 1993, allowing publicly-owned utilities to give their customers the option of making the customer's address, telephone number, and social security number confidential.

IS THERE A CHARGE FOR THIS SERVICE?

Yes. There is a one-time charge of \$5.00 to cover the cost of postage and implementation which must be paid at the time of request.

HOW CAN YOU REQUEST THIS?

Simply complete the form at the bottom of this page and return it with your check or money order for \$5.00 to:

Weston Water Supply Corporation
P O Box 158
Weston Texas 75097

Your response is not necessary if you do not want this service.

**WE MUST STILL PROVIDE THIS INFORMATION UNDER LAW TO CERTAIN
PERSONS.**

We must still provide this information to (1) an official or employee of the state or a political subdivision of the state, or the federal government acting in an official capacity; (2) an employee of a utility acting in connection with the employee's duties; (3) a consumer reporting agency; (4) a contractor or subcontractor approved by and providing services to the utility or to the state, a political subdivision of the state, the federal government, or an agency of the state or federal government; (5) a person for whom the customer has contractually waived confidentiality for personal information; or (6) another entity that provides water, wastewater, sewer, gas, electricity, or drainage service for compensation.

Detach And Return This Section

Yes, I want you to make my personal information (address, telephone number, and social security number) confidential. I have enclosed my payment of \$5.00 for this service.

MEMO

DATE:

TO: Customers of Weston Water Supply Corporation

FROM: , President, Weston WSC

CC:

SUBJECT: CUSTOMER NOTICE OF WATER RATIONING

Due to extreme water usage during the past weeks our system is unable to meet the demand of all water needs. Therefore, under our Emergency Water Rationing Program on file with the Texas Natural Resource Conservation Commission, Stage ____ - _____ Rationing will begin on _____ and will be in effect no later than _____ or until the situation improves.

Stage ____ rationing allows _____

The Board has authorized the installation of a flow restrictor in your line if you are found violating these rules. Subsequent violations may result in temporary termination of service. If you feel you have good cause for a variance from this rationing program please contact us in writing at the address above. A complete copy of our approved Rationing Program is available for review at our business office.

Thank you for your cooperation.

DEFERRED PAYMENT AGREEMENT

By execution of this Agreement, the undersigned Member agrees to payment of outstanding debt for water utility service as set forth below:

Member agrees to pay \$ _____ per month, in addition to current monthly water utility service rates, fees, and charges, as set forth in the Corporation's Tariff, until the account is paid in full. Any fees normally assessed by the corporation on any unpaid balance shall apply to the declining unpaid balance.

Failure to fulfill the terms of this Agreement shall institute the Corporation's disconnection procedures as set forth in the Corporation's Tariff unless other satisfactory arrangements are made by the Member and approved by the Corporation's authorized representative.

MEMBERSHIP TRANSFER AUTHORIZATION

Transferor hereby surrenders Membership in the Weston WSC by execution of the attached Stock Certificate. Water service rights granted by Membership and other qualification hereby cease contingent upon further qualification of the Transferee in accordance with the policies of the Weston WSC.

By execution hereof, the undersigned hereby acknowledges that the Membership Transfer complies with the terms of one of the following items (1) through (4), thereby qualifying for transfer of Membership in accordance with the laws of the State of Texas.

1. The Membership is transferred by will to a person related to the Transferor within the second degree by consanguinity; or
2. The Membership is transferred without compensation to a person related to the Transferor within the second degree by consanguinity; or
3. The Membership is transferred without compensation or by sale to the Corporation; or
4. The Membership is transferred as a part of the conveyance of real estate from which the Membership arose.

Transferee understands that qualification for Membership is not binding on the Corporation and does not qualify Member for continued water service unless the following terms and conditions are met:

1. This Membership Transfer Authorization Form is completed by the Transferor and Transferee;
2. The Transferee has completed the required Application Packet;
3. All indebtedness due the Corporation has been paid;
4. The Membership Certificate has been surrendered, properly endorsed, by the record Transferor;
5. The Transferee demonstrates satisfactory evidence of ownership of the property designated to receive service and from which the Membership originally arose; and
6. Any other terms and conditions of the Corporation's Tariff are properly met.

**NOTICE OF REQUIREMENT TO COMPLY WITH THE SUBDIVISION AND
SERVICE EXTENSION POLICY OF
WESTON WATER SUPPLY CORPORATION**

Pursuant to Chapter 13.2502 of the Texas Water Code, Weston Water Supply Corporation hereby gives notice that any person who subdivides land by dividing any lot, tract, or parcel of land, within the service area of Weston Water Supply Corporation, Certificate of Convenience and Necessity No. 12330, in Collin County, into two or more lots or sites for the purpose of sale or development, whether immediate or future, including re-subdivision of land for which a plat has been filed and recorded or requests more than two water or sewer service connections on a single contiguous tract of land must comply with [title of subdivision service extension policy stated in the tariff/policy] (the "Subdivision Policy") contained in Weston Water Supply Corporation.

Weston Water Supply Corporation is not required to extend retail water utility service to a service applicant in a subdivision where the developer of the subdivision has failed to comply with the Subdivision Policy.

Applicable elements of the Subdivision Policy, depending on the specific circumstances of the subdivision service, may include:

Evaluation by Weston Water Supply Corporation of the impact a proposed subdivision service extension will make on Weston Water Supply Corporation's water supply system and payment of the costs for this evaluation;

Payment of fees for reserving water supply capacity;

Forfeiture of reserved water supply service capacity for failure to pay applicable fees;

Payment of costs of any improvements to Weston Water Supply Corporation's system that are necessary to provide the water service;

Construction according to design approved by Weston Water Supply Corporation and dedication by the developer of water/sewer facilities within the subdivision following inspection.

Weston Water Supply Corporation's tariff and a map showing Weston Water Supply Corporation's service area may be reviewed at Weston Water Supply Corporation's office, P.O. Box 158, Weston, Texas 75097; the tariff/policy and service area map also are filed of record at the Texas Natural Resource Conservation Commission in Austin, Texas and may be reviewed by contacting the TNRCC, c/o Utility Rates and Services [Certification and Rate Design] Section, Water Utilities Division, P.O. Box 13087, Austin, Texas 78711.

Dear Name:

Your recent payment of \$_____ has been returned for insufficient funds. This brings your account several months past due. To keep your account with us in good standing and to avoid having your service interrupted we ask that you send a money order or cashier's check for the current amount due of \$_____ by _____. If payment is not received by _____ your service will be disconnected and an additional fee of \$50.00 will be added for the disconnect/reconnect and service trip fee. Below is a breakdown of your current charges.

Date	Account Balance	\$
Date	Month Water Charges	\$
	Balance due:	\$

If the returned check is due to a bank error, please contact us with verification from the bank. In the case of a bank error, we do let customers simply send a replacement check.

Please handle this matter promptly, as a delay may affect your account with us. If you have questions about this letter, please contact us as soon as possible.

Sincerely,

REQUEST FOR SERVICE DISCONTINUANCE

I, _____, hereby request that my water meter account number _____ located on _____, be disconnected from Weston Water Supply Corporation. I understand that if I should ever want my service reinstated I may have to reapply for service as a new member and I may have to pay all costs as indicated in a then current copy of the Weston Water Supply Corporation Tariff. Future ability to provide service will be dependent upon system capacity, which I understand may be limited and may require capital improvements to deliver adequate service. I also understand that these improvements will be at my cost. I further represent to the Corporation that my spouse joins me in this request and I am authorized to execute this Request for Service Discontinuance on behalf of my spouse.

RIGHT-OF-WAY EASEMENT DENIAL FORM AND AFFIDAVIT

PROPERTY OWNER'S NAME

LEGAL DESCRIPTION OF PROPERTY

Weston WSC has attempted to acquire an easement for a community water distribution system across your property. It is now necessary to require an easement either be granted or refused by you within thirty (30) days after receipt of this notice. Attached is Weston WSC's standard easement form. If you are not in agreement to grant easement, sign the middle portion of this document and return it to us, at which time this document will be filed in our office. Failure to return this document or the attached easement will result in a copy of this document being completed and signed by us to keep on file for future reference purposes. Failure to grant easement does not relieve Weston WSC of the obligation to serve water to the aforementioned property in the future, but does make the then current property owner, at time of application for water service, responsible for the financial burden of moving the water line from public right-of-way to private right-of-way plus any other normal charges for service. For further clarification, contact our office.

I, _____ hereby refuse Weston WSC easement for a community water distribution system on the aforementioned property.

Signature of Property Owner

AFFIDAVIT

Being duly sworn upon my oath, I hereby certify that this is a true copy of the document sent by certified mail to _____ on _____, and a signed receipt verifying delivery and acceptance is on file in the office of Weston WSC, Weston, Texas. I further certify a signed easement or signed refusal of easement was not received within thirty (30) days following receipt by property. I further state under oath that the engineer for the Corporation has furnished the property owner an estimate of cost for rerouting pipeline for which easement was denied to private property.

NOTICE TO OWNER OF RENTAL PROPERTY

You are hereby given notice that your renter/lessee is past due on your account with the Corporation. The renter/lessee has been sent a second and final notice, a copy of which is enclosed herein, and the utility service will be scheduled for disconnection unless the bill is paid by the final due date. If disconnection occurs, the Corporation's policies under the terms and conditions of its Tariff shall govern restoration of disconnected service. A fee of \$_____ has been posted to the account for mailing of this notice. Any unpaid bills, service fees, or reconnect fees (service trip fees) are chargeable to the owner. If you have any questions concerning the status of this account, please do not hesitate to call.

MEMBERSHIP MORTGAGE AGREEMENT

This agreement hereby verifies that the Weston WSC provides or is able to provide utility service under the terms and conditions of its Tariff to the property so designated in this agreement.

The Weston WSC does meet the service requirements of the Texas Natural Resource Conservation Commission and currently holds all authorization or certification required.

The Membership available/assigned to this property is transferable to all legally qualifying interests upon compliance with the terms and conditions of the Weston WSC's Tariff, including but not limited to completion of all required forms and applications, payment of all fees, and payment of final account balances.

The Weston WSC shall notify any Loan/Membership guarantor and/or mortgagee by certified mail at least thirty (30) days prior to Membership/Service termination and guarantor/mortgagee hereby guarantees payment of any account balances required to prevent termination of Membership by the Weston WSC.

A guarantor and/or mortgagee shall qualify as a bona fide lien-holder to the Membership by providing a Deed of Trust*, to be hereto affixed, for the real property in question and designated below which clearly defines the guarantor and/or mortgagee as the lien-holder of the Membership and the real property for which Membership was issued. Weston WSC shall notify the entity so designated in the Deed of Trust*.
